W.H.PERRON

1. Carefully remove all parts from the boxes and inspect that all is included and undamaged.
 - A. Packaging material for fixture
 - One (1) - 4 ' fluorescent T5 HO Hydro Farm fluorescent tube.
 - Power cord of 182,8 cm (6 ') with ON/OFF switch.
 - Two (2) hanger clips.
 - B. Light stand
 - Two (2) upright legs
 - Four (4) foot pieces
 - One (1) channel crossbar
 - Two (2) two-way elbow connectors (pre-installed)
 - Two (2) three-way connector.
 - Four (4) end inserts (pre-installed)
2. Before installing the tube, remove the cardboard and inspect each socket end on the lighting fixture to ensure it is ready to receive the pins on the ends of the fluorescent tube.
Carefully align the pins vertically upon inserting them into each socket and once it is all the way down, gently rotate the bulb to seat the pins into horizontal orientation. You should feel a click upon proper installation.
3. To install the reflector, insert the clips with the chains on the reflector and turn the screws in clockwise in the upper part of the frame.
4. To set the height of the reflector, adjust with the chains, in required length.
5. Plug the power cord in a 120 V, 60Hz electrical outlet.
6. Do not use with dimmers.
