Germination temperature in Celsius.

Number of days of germination.

Melliferous and nectariferous flowers

Cut flowers

F1 The "Hybrid F1" (or generation 1) mention in the name of certain seeds indicates that they are issued from a cross between two (2) plants of pure or stable lines, having coveted characteristics. The hybrid "F1" has a superior quality, called "hybrid vigour" which is the ability to grow faster and more vigorously, thus offering a higher yield than either of its parents. Hybrid seeds can improve flavour, offer greater resistance to disease and insects and cold and heat. This way, you can ensure that your garden has a good chance of success.

VEGETABLES SEEDS

You will notice that all maturities and types of seeds are clearly identified, see legend below.

GMO : Genetically modified organisms*

* To the best of our knowledge, no vegetable seeds sold in this catalogue have been genetically modified.

To meet our clients increasing demands, W.H. Perron is proud to offer a larger variety of certified organic seeds. Just look for the **ORGANIC** symbol.

Organic seeds are Ecocert Canada certified since 2008.

MATURITY

Relative maturity after transplantation

Relative maturity after sowing

2024 NOVELTIES – VEGETABLES

Pumpkin Orange Sunrise F1

A beautiful early maturing pumpkin with a very attractive dark orange colour. It's beautiful round shape as well as its ribbing allows it to have a very easy format to handle. Strong dark green handle. The ideal variety to grow for a good Halloween production. Intermediate resistance to powdery mildew. Replaces the Orange Rave variety.

Treated seed.

Fruit weight (kg) : 7-9

Type : Medium

Code	Maturity (days) S	Seeds / pkg	Price
65-4018-010	100	20	6,79 \$

Pumpkin Phantomita Tricolour F1

A good production of beautiful, flat, highly ribbed fruit with unique colour and stripe pattern. The flesh and sugar content are like an acorn squash. A variety to try this year without a doubt.

Treated seed.

Fruit weight (kg) : 0,5-0,7

Type : Small

Code	Maturity (days) S	Seeds / pkg	Price
65-4053-010	90	20	7,89 \$

Pumpkin Jade Knight Green F1

Grow a square-shaped, flattened, moderately ribbed pumpkin with a unique dark gray-green colour. Trailing vines are excellent yielders and have intermediate resistance to powdery mildew and zucchini yellow mosaic virus. The pumpkin you need to vary your fall decorations. Thick bright yellow flesh, that has a pleasant taste.

Treated seed.

Fruit weight (kg) : 3-4,5

Type : Small

Code	Maturity (days) S	Seeds / pkg	Price
65-4063-010	90	20	7,89 \$

2024 NOVELTIES – VEGETABLES

Pumpkin Fireball F1

An explosive addition to your pumpkin varieties! Yellow coloured fruits with orange stripes that form a unique pattern. The plants give excellent yields of pumpkins that hold up very well after harvest. Everyone will love this very attractive variety.

Treated seed.

Fruit weight (kg): 4

Type : Small

Code	Maturity (days) S	Seeds / pkg	Price
65-4066-010	110	20	7,89 \$

Pumpkin Moon Stacker White F1

A charming white skinned pumpkin who has a super-thick, bright yellow-orange flesh. It's very oblate shape with ribbing is perfect for stacking as its name implies. Pairs beautifully with blue, pink and red stacking varieties. This pumpkin has high eating quality flesh and a long storage life.

Treated seed.

Fruit weight (kg): 5-6

Type : Small

Code	Maturity (days) S	Seeds / pkg	Price
65-4071-010	95	20	7,89 \$

Gourd Ga Ga Ga F1

This crooked ornamental squash has two types of using. The young, light-yellow fruits have a buttery flavour, a firm texture and are very nice for cooking. The fully ripen, golden yellow, blistered fruits are very attractive for fall decoration. Vigorous, bushy variety.

Untreated seed.

Fruit lenght (cm) : 20

Code	Maturity (days) S	Seeds / pkg	Price
65-4682-01N	100	20	6,79 \$

2024 NOVELTIES – VEGETABLES

Cucumber Quick Snack F1

Perfect little mini cucumber to grows inside on a sunny windowsill or counter without a garden. It can also grow outside as a tabletop patio variety. Parthenocarpic variety, which means it will set fruits without a pollinator! Perfectly adapted to the urban grower. Try it at home and the deliciously crisp and sweet taste of this cucumber will charm you.

Untreated seed.

Fruit size L X D (cm) : 5 x 3

Flowering type : Parthenocarpic

Code	Maturity (days) T	Seeds / pkg	Price
65-4277-01N	45	20	6,79 \$

Cucumber Lemon

Attractive heirloom open-pollinated cucumbers that are small and round with lemon-coloured skin. The lime-green flesh is very mild, sweet and never bitter. Very nice for slicing and easy to digest. Vigorous long vine that does well on a trellis or fence. Plants may become quite sprawly, but the fruit production is incredibly vigorous. To lengthen the fruiting period, keep the plants carefully picked so that no fruits are allowed to mature on the vine.

Organic seed.

Fruit size L X D (cm) : 4 x 6

Flowering type : Monoecious

Code	Maturity (days) S	Seeds / pkg	Price
65-4278-01B	70	20	6,79 \$

Watermelon seedless Cracker Jack Red F1

A big beautiful early seedless watermelon. It grows with great vigour and is tolerant to several diseases. This is the variety to try to have an abundant production of red melons with firm flesh and a sweet taste. Replace the Road Trip F1 variety.

Pollinator plant required.

Treated seed.

Fruit weight (kg) : 6,8 - 8,6

Code	Maturity (days) T	Seeds / pkg	Price
65-6044-010	78	10	16,59 \$

2024 NOVELTIES – VEGETABLES

Radish Purpella F1

Surprising dark purple radish with good uniformity and high yields. Sizes up very quick and shows good field holding ability. Its interior stays shiny white and crispy. Can be grown in greenhouse as well as outdoors. A radish to be added in your vegetable garden.
Untreated seed.

Code	Maturity (days) S	Seeds / pkg	Price
65-8062-01N	27	150	6,79 \$

Tomato Pink Delicious F1

Giant heirloom-style tomato, as pink as it is delicious! Earlier variety that yields more than most pink tomatoes. Better germination and greater disease tolerance too, making it easier to grow. The large fruits crack less and are uniform in size, as well as having an excellent flavour, sweeter than the usual pink tomatoes.
Untreated seed.

Plant size: Large Indeterminate

Fruit weight (g) : 300

Code	Maturity (days) T	Seeds / pkg	Price
65-8881-01N	75	20	6,79 \$

Hot Pepper Velociraptor (Habanero) Red F1

A habanero-style pepper, red, early, and high yielding that easily adapts to various growing conditions. It yields an abundance of very large, bright red-hot peppers that grow on a medium-sized plant. Excellent uniformity, beautiful colour, good smell, and the distinct taste of a classic habanero.

Treated seed.

Fruit size L X D (cm) : 6 x 4

Code	Maturity (days) T	Seeds / pkg	Price
65-7356-010	80	20	7,89 \$

2024 NOVELTIES – VEGETABLES

Sweet Pepper Peppers from Heaven F1 series

Peppers From Heaven are small, sweet peppers great for hanging baskets and 15-17 cm pots.

Compact plants produce lots of fleshy fruit that turns green to glossy yellow, red or orange colour. Plant 3 plants in one basket for a fuller look. They are low maintenance and blooming season lasts from late spring to late summer. They are for culinary use, try them in each colour.

Untreated seed.

Seeds on a tape

Beet Boltardy – 140 s/t
69-0810-01N

UNTREATED «SEEDS ON A TAPE»

Discover our new line of «seed on a tape»! Seeds that have been inserted, in an optimal way, between two very thin layers of biodegradable fiber cloth.

A ribbon of seeds ensures the perfect density and prevents from overdosing.

In addition, nothing more simple: make a little furrow, lay down the pre-cut ribbon to the required length, moisture it and cover it with a thin layer of soil. Water. Wait. Admire. Easy no?

Tape Length: 6 meters

Seeds herbs discs

69-3112-01N Chives

A simple alternative to growing herbs without worrying about handling small seeds is to use seed discs.

Choose a container larger than the disc (8 cm dia.), Fill it with potting soil, line the surface to level and place the seed disc there. Then cover with a thin layer of vermiculite or potting soil and water thoroughly. It is recommended to place the container under an artificial light and to use a heating mat.

Schefflera arboricola

Schefflera ☀☀

☀ 10-22 📏 23-29 🪴 30-60

Schefflera arboricola, is a superb shrub with a compact and bushy habit. This subtropical decorative beauty has glossy, oblong leaves. The shiny, leathery green leaves are arranged on their slender stems like an umbrella or like fingers on a hand. As a houseplant, the Schefflera is quite versatile and will adapt easily to a variety of conditions. It is also an excellent air purifier.

TROPICAL PLANTS BY SEEDS

Monstera deliciosa

🌿 23 🌱 15

Monstera deliciosa, a liana native to tropical rainforests. Popular in the 1970's as a houseplant and now it's back in vogue, terribly prized for its huge, deeply lobed and perforated leaves. With its stems covered with aerial roots, its vigour and abundance will create a "jungle effect". This one fears excess water. The best place to install your Monstera may be near a window, but without direct sunlight. Wonderful indoor plant, resistant and easy to grow.

Code	Height (m)	Seeds/pkg	Price
64-6140-010	1	25	11,09\$

Lacy Tree Philodendron

🌿 23 🌱 15-30

Ideal for beginners, the Philodendron tends to adapt easily to its environment. This one has foliage as interesting as Monstera. The young leaves are of a pale tender green. As they grow, they have an irregular shape that will make your plant stand out in your decor. A luminous place will make them happy, without exposing them to direct sunlight. It is important to let the soil dry slightly between waterings, especially in winter.

TROPICAL PLANTS BY SEEDS

Bird of Paradise

The *Strelitzia*, also called "bird of paradise" because of its bird-shaped flower, is native to South Africa. With its imposing stature and large leaves, it rarely goes unnoticed.

Flowering : It takes between five and seven years for a bird of paradise to reach full maturity. In appearance, they are quite similar, although the second is even more imposing. The colour of the flowers is also different. It is very rare that they bloom indoors. To support the bloom, the plant must live in an environment of 10 °C during the winter.

Care : The bird of paradise is easy to maintain, but requires an abundant light. It tolerates even the direct sun. Outside, it is better to place it under a shelter to prevent burns on the leaves. Water it regularly, especially in summer, on hot days, ideally in the evening to limit evaporation. Let it dry between watering's. Spray daily if the air is dry or shower it to reproduce the effect of a rain shower. Repot in the spring, in a larger container if it's cramped.

TROPICAL PLANTS BY SEEDS

Grevillea robusta

Silky oak

🌿 23 🪴 30

Grevillea also called "silky oak" adjusts as a low-growing houseplant. Plant in a medium to large containers and place it in a sunny, well-lit window with good air circulation. Grevillea is very drought tolerant, check your soil moisture regularly to make sure you don't overwater. Prune after flowering and feed with a low phosphorus granular fertilizer in the spring. If you're looking for a great houseplant, this one's for you.

Coffea arabica

Coffea

🌿 25 🪴 14-21

An interesting plant with lush green foliage, fragrant flowers, and the familiar red coffee beans! It makes a nice houseplant, easy to grow for beginner gardeners. Coffee plants prefer bright, but indirect light and like the temperature between 21-25°C. The soil should be moist, but not soaking wet. The plant will need less water in the winter than in the summer.

POLLINATOR MIX

Bees are the most predominant pollinators of flowering plants and they play a vital role in healthy ecosystems. Losses of natural food supplies and habitats have resulted in the decline of native bees and other pollinators. This is why we have decided to offer this mixture to supply flowers that provide nectar and pollen for native bees, honeybees, butterflies and other pollinators.

The mixture consist of Black-Eyed Susan, Blue Wild Indigo, Brown-Eyed Susan, Butterfly Milkweed, Eastern Columbine, Gray Goldenrod, Indian Blanket, Lance-Leaved Coreopsis, Lavender Hyssop, Lemon Mint, New England Aster, Ohio Spiderwort, Partridge Pea, Perennial Lupine, Plains Coreopsis, Purple Coneflower, Showy Tick Trefoil, Spotted Beebalm, White Upland Aster, White Rockcress and Wild Sunflower.

Variety Code	Expo.	Hardiness Zone	Height	Spread	Soil	Variety Description	Price 1 Pkg
Trees							
68-2010-010 Black spruce	☀	1a	15 - 20 m	6 m	moist	The Picea mariana evokes the vast boreal expanses of Quebec. It is also the tree from which the famous spruce beer is made. Proudly cultivate this emblem of our forests.	\$ 5.00 100 s/p
68-2002-010 Black walnut	☀☀	4b	27 - 30 m	25 m	cool	Juglans nigra is not indigenous to Quebec having been introduced at the end of the 19th century by "le Seigneur Joly de Lotbinière". Its growth is slow and long, but is a wonderful gift for generations to come. This specie requires deep, well-drained soil in order to establish its generous root system.	\$ 5.00 3 s/p
68-2004-010 Old Field Birch	☀	1	7,5 - 10 m	3 m	cool or dry	The Betula populifolia has red only the name because its decorative bark is perfectly white with large triangular black markings. Suitable for sandy and poor soils, it is perfect for places that were once bare and need to be refurbished.	\$ 5.00 500 s/p
68-2003-010 Red Oak	☀	3a	30 m	20 m	cool or moist	Quercus rubra is one of the most majestic trees of our flora. Its autumn coloration is magnificent and, although it is a slow-growing tree, it is among the oaks the fastest growing.	\$ 5.00 10 s/p
68-2000-010 Sugar Maple	☀☀☀	3	25 - 30 m	20 m	cool	Acer saccharum is a large native tree with flaming autumnal colours. Its sap, transformed into sirup, is a treat for young and old, since the dawn of time. Cultivate this beautiful emblem of our forests on your land.	\$ 5.00 10 s/p
Shrubs							
68-2036-010 Alternate-leaved Dogwood	☀	3	3 - 6 m	2,5 m	cool or moist	Cornus alternifolia very elegant and surprising with its branches developing in horizontal layers. Slow in growth, this native shrub is perfectly adapted for city gardens. Furthermore, the birds are very fond of its dark fruits.	\$ 5.00 15 s/p
68-2005-010 Black Chokeberry	☀	1	90 - 200 cm	150 cm	cool, moist or water soaked	Black Chokeberries are little-known fruits originating from the Aronia melanocarpa . At ease in acid soils, this plant produces lovely white flowers highlighted by shiny foliage.	\$ 5.00 15 s/p

Variety Code	Expo.	Hardiness Zone	Height	Spread	Soil	Variety Description	Price 1 Pkg
Perennials							
68-5041-010 False Sunflower	☀	4	90 - 125 cm	55 cm	cool	The Heliopsis helianthoides is a native perennial flower that looks like small sunflowers. It blooms earlier than its cousins, allowing you to enjoy sunny bouquets longer.	\$ 500 100 s/p
68-5031-010 Firewood	☀	2	130 - 200 cm	40 cm	cool or dry	Epilobium angustifolium have long slender stems that are covered with a multitude of pink flowers in the heart of summer. It is hard to imagine that such small seeds can give birth to such large and vigorous native plants.	\$ 5.00 1000 s/p
68-5045-010 Giant St. John's-wort	☀	4	60 - 100 cm	60 cm	cool or moist	The Hypericum pyramidatum is a beautiful native perennial whose lemon-yellow flowers can reach 5 cm in diameter. Very floriferous in rich soil, it forms copses with generous foliage.	\$ 00 1000 s/p
68-5095-010 Golden meadowparsnip	☀☀	3	30 - 90 cm	40 cm	cool, moist or water soaked	The Zizia aurea is a flower whose early blooming delights many beneficial insects in search of spring nectar. Its very finely cut foliage offers an interesting contrast to wetland plants of a generally more rudimentary texture.	\$ 5.00 195 s/p
68-5035-010 Joe-Pye-weed	☀☀	3	100 - 150 cm	60 cm	cool, moist or water soaked	The Eupatorium maculatum is a flower that is very suitable for humid places. It also works wonders when planted at the edge of a water basin. Regularly visited by butterflies, it adds life to the garden.	\$ 5.00 1000 s/p
68-5051-010 Larger Blue-Flag	☀☀	2	45 - 65 cm	50 cm	cool, moist or water soaked	The Iris versicolor is the floral emblem of Quebec since 1999. It is at the approach of the national holiday, June 24th, that we can see its magnificent blue, white and yellow flowers. Perfect for a water garden and its surroundings.	\$ 5.00 15 s/p
68-5005-010 Life-everlasting	☀	3	30 - 50 cm	40 cm	dry	Anaphalis margaritacea is a indigenous perennial plant with silvery gray foliage with velvety texture. Typical of dry and rocky soils, it is suitable for gardens that receive little water or drain quickly. Perfect for sunny flowerbeds.	\$ 5.00 1000 s/p
68-5013-010 New England Aster	☀	3	50 - 150 cm	30 cm	cool or dry	The Aster novae-angliae is the most colorful and flowering of all Asters in North America. Cultivate it in groves to take full advantage of its slightly camphorated scent. Ideal for your country gardens.	\$ 5.00 1000 s/p

Pokeweed

Snakehead

Swamp milkweed

Swamp Sunflower

Victorin's Evening Primrose

Wild Bergamot

Wild Columbine

Wild Yellow Lily

Variety Code	Expo.	Hardiness Zone	Height	Spread	Soil	Variety Description	Price 1 Pkg
Perennials							
68-5070-010 Pokeweed		5	90 - 300 cm	50 cm	cool or moist	The Phytolacca americana is a rare plant with stems of an intense pink. In a rich soil, it is spectacular. It produces abundant black fruits which were used by the Amerindians to dye fabrics purple.	\$ 5.00 15 s/p
68-5015-010 Snakehead		3	30 - 90 cm	45 cm	cool, moist or water soaked	The Chelone glabra with its white flowers tinted with pink is a plant whose growth is rather fast. One will thus provide it with enough space to develop. It appreciates humid, peaty and even swampy conditions.	\$ 5.00 1000 s/p
68-5009-010 Swamp milkweed		3	30 - 120 cm	40 cm	cool, moist, water soaked	People who love butterflies, monarchs in particular, should make a point of cultivating Asclepias incarnata . It will enjoy the company of other North American milkweed, such as tuberous and common milkweed. Bright and fragrant blooms.	\$ 5.00 15 s/p
68-5040-010 Swamp Sunflower		4	30 - 100 cm	30 cm	cool or moist	The Helenium autumnale is a hardy perennial that tolerates heavy, clayey soils. Its petals, of a brilliant yellow, end in three points which give the plant a unique appearance.	\$ 5.00 1000 s/p
68-5065-010 Victorin's Evening Primrose		2	65 - 125 cm	25 cm	dry	The Oenothera victorinii is one of the few flowers dedicated to Brother Marie-Victorin. Its flowers open at the end of the day and remain open all night. This makes it an important plant for some moths.	\$ 5.00 1000 s/p
68-5063-010 Wild Bergamot		4	45 - 90 cm	45 cm	cool	The Monarda fistulosa is a fragrant and vigorous native perennial. It does not fear competition from other flowers and is more resistant to disease than other bee balms. Easy to grow and easy to love.	\$ 5.00 1000 s/p
68-5007-010 Wild Columbine		3	30 - 60 cm	30 cm	cool or dry	The Aquilegia canadensis enjoy rocky soils and rocky crevices. This makes them highly appreciated for cultivation in troughs or rocky outcrops. Their red yellow flowers are of great beauty and attract hummingbirds.	\$ 5.00 15 s/p
68-5061-010 Wild Yellow Lily		4	100 - 150 cm	45 cm	cool or moist	The Lilium canadense is one of the most beautiful native flowers of Quebec. Although they are slow to produce from seed, the challenge is worth it because their beauty is unequalled. « See the lilies of the field ... » Brother Marie-Victorin.	\$ 5.00 10 s/p

STRAWBERRY PLANT PLUGS

84-3840-MO5 ALBION STRAWBERRY PLUG 5/PKT

TIME FROM PLANTING TO FLOWERING : 5-6 weeks

TIME FROM FLOWERING TO FRUITS : 5-6 weeks

TOTAL TIME TO GET FRUITS : 10-12 weeks

FERTILIZER : Fertilize regularly as you do for your annual flowers plants.

SPREADING : 25-30 cm

FLOWERING : Continuous but can decrease during a heatwave period.

HARVEST : June to September

EXPOSITION : Sun

Quickly and easily grow your strawberries with these strawberry plugs

GROWER'S TIP

Plant the plugs as soon as possible after receipt, since the plants are in a growth period. If you cannot plant them quickly, keep them in a cold area at 5°C. It is very important for the plant, not to miss water during the flowering period, in order to have beautiful fruits.

1 pkg (5 plants) 11.50\$

3 pkgs or more 10.35\$/each

Nothing is easier than growing your own strawberries with these large plugs! In the garden, on a balcony bag, hanging basket or patio containers, these strawberry plants grow faster. The floral initiation period is done in the fall and then the plants are kept in cold storage until planting at spring. The day neutral Albion variety produces fruit until September contrary to short day varieties that give a concentrated production for three weeks. Each plant can bear up to 30 flowers! The firm fruits are bright red, sweet, tasty and have a high level of antioxidant properties which is beneficial for your health. Albion is a well-known variety used by field growers.

WINTER PROTECTION

Open ground: Protect with a good layer of dried leaves, straw or mulch. In spring, clear plants of protection and allow them space to grow.

WINTER PROTECTION SUGGESTIONS CONTAINER OR HANGING BASKET

Let plants experience a few touches of frosts to stimulate their dormancy. Then, place them in a slightly heated area (garage or cold room). Water them lightly, just enough to prevent drying out. You could also dig a hole in the garden and place the container there in the hole for the winter. Fill the space around the container with soil and cover the container and the plant with mulch. In the spring, dig up, clean, and rehang. Remove the plants from the container and plant them in the ground for the winter, covering them well with mulch. In springtime, repot your plants.

STRAWBERRY BY SEEDS

Original and decorative that will produce all summer long.

Customized for culture out of pots or hanging baskets, they are ideal for urban gardeners. Since these plants are perennials, you can also have them in your garden.

1 pkg (20 s/p) **11.09\$** 3 pkgs or more **9.98\$/each**

64-3816-010 Ruby Ann F1

Produces a ruby-red cascade of flowers and sweet fruits during whole summer. Fruits are medium sized and have typical strawberry-like conical shape. Very sweet fruits.

64-3823-010 Gasana F1

Large pink flowers, plant will produce many runners and very sweet conical fruits.

64-3825-010 Toscana F1

Large, very bright pink flowers (5 cm). Fruits are conical, very tasty and fragrant.

64-3821-010 Delizz® F1

First ever AAS strawberry winner, Delizz® is easy to grow and will produce an abundant harvest throughout the growing season. Ever bearing variety, climbing, producing few runners. White flowers, green foliage and shiny dark red fruits.

64-3855-010 Summer Breeze Rose F1

Produces double dark rose flowers followed by an abundance of sweet conically shaped, medium-large fruits for the entire summer.

GROWER'S TIP

For best results, start sowing indoors under glass or plastic and keep moist. Lightly cover the seeds with vermiculite. Once sprouted, maintain at cool temperatures (night temperatures at 10 °C). Transplant outside using a greenhouse tunnel or plastic non-heated tunnels. Requires lots of light.

For winter protection refer to strawberry plants plugs

POTATOES

The potato - delicious and nutritious !

Prefer a well-drained soil with lots of organic matter. Due to the sensitivity of the products, climatic variations and complexity of transport operations, W.H. Perron informs you that unfortunately, the products of this order form will no longer be shipped to these regions: Newfoundland and Labrador / P.E. I. / Quebec JOM / Alberta / Saskatchewan / Manitoba / Nunavut / Yukon / N.W.T and British Columbia, in the regions with postal codes starting with: A / C / JOM/ R/ S/ T/ V/ X/ Y. Quebec (except JOM), Ontario, New Brunswick and Nova Scotia.

Chaleur

Chieftain

Jazzy type fingerling

Double Fun

Mix Bleu, Blanc, Rouge

Norland

'Vivaldi'

Variety Code	Variety Description	Price 1 Pkg
Potatoes Delivery May 2024		
59-7009-390 Chaleur	Canadian variety named for its improved tolerance to hot and dry conditions. High yield of very early large tubers with average storability. 'Chaleur' is one of the only varieties with which you can make French fries as soon as the second day after harvest. Also, excellent for boiling and baking. (Early - Maturity 90 days)	13.30 \$ 1,5 kg
59-7045-390 Chieftain	Round tubers with bright red skin and white flesh. Very good resistance to scab and other diseases. High yield. For boiling. Plants of medium height with a spreading habit. (Mid-season - Maturity 115 days)	13.30 \$ 1,5 kg
59-7003-390 Double Fun	"Double Fun" has beautiful dark purple flesh and skin. It has the same taste and nutritional value as regular potatoes. When cooked, it will retain its beautiful color. Avoid very dry soils, if there is no irrigation to harvest large quantities. High yield. (Mid-season - Maturity 100 days)	14.70 \$ 1,5 kg
59-7036-390 Jazzy type fingerling	'Fingerling' type potato, has an oblong shape with a yellow skin and a firm yellow flesh. Its taste is excellent and can be eaten with the skin. This variety does not store for long. (Early - Maturity 90 days)	14.70 \$ 1,5 kg
59-7000-390 Mix Bleu, Blanc, Rouge	Have fun in growing potatoes in different colours and with different maturities. This mixture contains bulbs of Double Fun (mid-season, blue) , Chaleur (early, white) and Chieftain (mid-season, red) .	14.70 \$ 1,5 kg
59-7022-390 Norland	Round to oblong red skin and white flesh tubers. Store very well from August to December. Not subject to internal necrosis. Very good mashed, boiled and also great French fries since it absorbs less oil. (Early - Maturity 95 days)	13.30 \$ 1,5 kg
59-7010-390 'Vivaldi'	Replacing Yukon Gold variety, Vivaldi is the new benchmark in the category of yellow-fleshed potatoes. Recognized for its exceptional taste and texture, it also produces a high yield. A variety with a low caloric intake that keeps very well. (Mid-season - Maturity 105 days)	13.30 \$ 1,5 kg

SHALOTT AND ONION - BULBS

Due to the sensitivity of the products, climatic variations and complexity of transport operations, W.H. Perron informs you that unfortunately, the products of this order form will no longer be shipped to these regions: Newfoundland and Labrador / P.E. I. / Quebec JOM / Alberta / Saskatchewan / Manitoba / Nunavut / Yukon / N.W.T and British Columbia, in the regions with postal codes starting with: A / C / JOM/ R/ S/ T/ V/ X/ Y. Quebec (except JOM), Ontario, New Brunswick and Nova Scotia.

GROWING METHOD

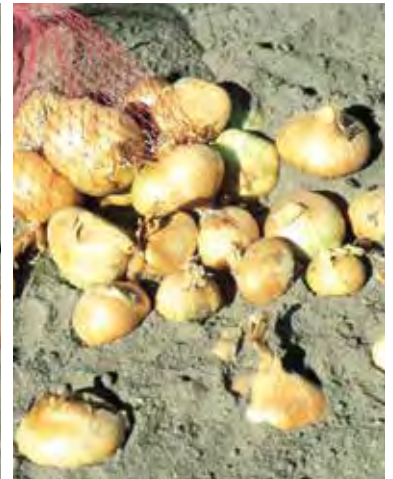

Planting: Sow in spring, in a firm bed, when the soil is easily manageable. **Soil:** Grow on an open site in a light to medium, fertile, well-drained soil. An all-purpose fertilizer can be added to the bed before seeding. Requires small amount of nitrogen. **Spacing:** Insert bulbs into the soil, spacing them apart about 8 cm to 10 cm. **Growing tips:** Always remove weeds. Onions have relatively few roots and once established, requires little water. Plant in a sunny area. **Harvest:** When mature, the leaves turn brown and die. To eat fresh, remove from soil as needed. For storage, ensure outer skins are completely dry.

White Canada #1

French

Multiplier or potato onion

Yellow Canada #1

Red Canada #1

Spanish

Variety Code	Variety Description	Price 1 Pkg
Shallot - Delivery early May 2024		
95-4015-320 French	Onion forming a packet of shallots that will mature, and in turn, will mature into a packet of bulbs. Only the red bulb is used, the taste of the tops being too strong. 10 bulbs /pkg.	5.90 \$ pqt
95-4019-320 Multiplier or potato onion	Onion forming a bunch of shallots (7 to 8). Leave 15 to 20 cm between the little bulbs. 15 bulbs /pkg	6.30 \$ pqt
Onion set - Delivery early May 2024		
95-6619-320 White Canada #1	Used for the consumption of shallot tops or of onions when mature. 100 bulbs / pkt	4.10 \$ pqt
95-6612-320 Yellow Canada #1	The onion sets, when transplanted in the garden in the spring, make early harvests of delicious bunching onions. The shallot bunching onions are ready to enjoy in just two (2) weeks, cooking onions in eight (8) weeks! Try it! 100 bulbs / pkt	4.20 \$ pqt
95-6616-320 Red Canada #1	More and more popular for cooking or in salads, you can grow red onions more rapidly with red onion sets. Red onions are the onions with the sweetest taste. 100 bulbs / pkt	4.20 \$ pqt
95-6613-320 Spanish	The Spanish onion set is different from the yellow onion by its round shape. It also has a milder and a sweeter taste than yellow onion. Use fresh. 100 bulbs / pkt	4.20 \$ pqt

Cut Flowers

Flowers have always played a special and unique role in our gardens. When they are abundant in the garden, many of us take the opportunity to make bouquets that will in turn brighten our homes. For those of you who like to make your own bouquets, here are our must-have varieties for a successful cut flower garden.

Variety Code	Form.	Colour	Type	Variety Description	Price 1 Pkg
Greenhouse Eggplant					
66-0615-01N Scorpio F1	UNT EXCL.	Purple	Oval	Dark, shiny, half-long (20 cm - 25 cm) fruits with a small calice. Uniform selection with average fruit weight of 350 gr - 400 gr. Beautiful presentation and attractive fruits that are easy to harvest.	22.09 \$ 10 s/p
Greenhouse Cucumber					
66-4241-010 Camaro F1	TR EXCL.	Green	English	Greenhouse cucumber with a very vigorous plant that will produce long and straight, slightly fluted, fruits. Intermediate tolerance to Powdery Mildew. Excellent quality.	16.59 \$ 10 s/p
66-4211-01B Picolino F1	EXCL.	Green	Mini	Mini greenhouse cucumber, crispy and firm, with a refreshing sweet taste. This vigorous and compact plant is early to produce an average of 3-4 fruits per node.	16.59 \$ 20 s/p
66-4220-01N Snacking DR7109CB F1	UNT EXCL.	Green	Mini	Cute, dark green, snacking cucumber of an average length of 9 cm and a weight of 35 gr - 40 gr. 7109 will provide good yields of crunchy, healthy fruits in your greenhouse.	22.09 \$ 10 s/p
Greenhouse Bean					
66-4301-01N Emerite	UNT EXCL.	Green	Fine	Emerite is a long and elegant filet pole bean. The pods of these classic beans are slim, rounded, and grow 17 cm - 22 cm long. Emerite's flavour is sweet, delicate, and the pods have a crispy snap that makes them especially delicious when just briefly steamed or quickly stir-fried. Emerite's tall vines (up to 2.4 m) are vigorous and productive.	7.89 \$ 50 s/p
Greenhouse Pepper					
66-7278-01N DR0719PB F1	UNT EXCL.	Orange	Bell	Nice large, shining orange greenhouse pepper, fleshy and sweet.	22.09 \$ 10 s/p
66-7282-01N Berkeley F1	UNT EXCL.	Yellow	Bell	Yellow pepper that shows an excellent quality, a constant square shape and a uniform size throughout the season.	22.09 \$ 10 s/p
66-7288-01N Dexter F1	UNT EXCL.	Red	Bell	Bell-type red pepper. Dexter ripens quickly, allowing you to quickly enjoy a fresh, crispy chili straight from your greenhouse.	22.09 \$ 10 s/p
Greenhouse Tomato					
66-9079-01N DR0603TC F1	UNT EXCL.	Red	Grape	This small greenhouse grape tomato is simply exceptional! Very sweet and well balanced taste. Yield is impressive, you can harvest fresh tomatoes for a long period of time.	22.09 \$ 10 s/p
66-9085-01N Komeett F1	UNT EXCL.	Bright red	On the vine	With its high yield, Komeett is easy to grow and provides fruits all summer long. The fruits weight around 155 grams. The yield is good even under low light conditions. The trusses are very uniform with an average of 5 bright red, tasty fruits each.	16.59 \$ 10 s/p
66-8880-01N Pink ID F1	UNT EXCL.	Pink	Round	For the amateur of pink tomato, here is a beautiful early variety whose fruits weigh from 170 g to 210 g. Pink ID has an exceptional taste and produces a large quantity of fruits without white heart or apical rot (black spots under the tomato).	16.59 \$ 10 s/p
66-9088-01N Trust F1	UNT EXCL.	Red	Round	The tomato most grown by greenhouse growers. Fruits have a flat globe shape. Continuous yield all season long.	16.59 \$ 10 s/p

Express (Primo)

Broad Windsor

Teggia

Kentucky Blue

Neckargold

Neckarkonigin

Tapia

Scarlet Runner

Variety Code	Maturity (days)	Form.	Length (cm)	Size	Colour	Variety Description	Price 1 Pkg
Broad bean							
65-5410-01N Express (Primo)	65	UNT EXCL.	16	Medium	Medium green	This very early variety is recommended for freezing.	3.59 \$ 30 s/p
65-5432-01N Broad Windsor	75	UNT EXCL.	15-20	Big	Medium green	Windsor broad bean is superb for family gardens. These wonderful beans have light-green pods, which contain 6-7 large seeds each that shell easily. Fresh or dried, broad beans must be cooked before eating in order to rid them of potentially toxic alkaloids. The young, tender leaves can be eaten raw, or cooked like spinach.	3.59 \$ 30 s/p
65-5432-28N Broad Windsor	75	UNT EXCL.	15-20	Big	Medium green	Available in 125 g/packet.	10.09 \$ 125 g
65-5432-0KN Broad Windsor	75	UNT EXCL.	15-20	Big	Medium green	Available in 1 kilo/packet.	*60.49 \$ 1 kilo
Shell bean							
65-5528-010 Teggia	80	TR EXCL.	17-20	Big	Red and cream	Teggia is a beautiful red and cream shell bean, 17 cm to 20 cm long pods. It can be picked early as a fresh shell bean, like a lima bean, or left to ripen and dry on the plant to make a supply of beautiful dried beans. Fresh beans have a delicious buttery flavour. Teggia grows on a bushy plant, free of currents and is easier to grow in northern regions than lima beans.	3.59 \$ 50 s/p
Pole bean							
65-5320-010 Kentucky Blue	55	TR EXCL.	16-18	Medium	Bluish dark	Sweet taste. Quality is superior to all Blue Lake types. Vigorous plants. Productive.	3.59 \$ 50 s/p
65-5320-280 Kentucky Blue	55	TR EXCL.	16-18	Medium	Bluish dark	Available in 125 g/packet.	10.09 \$ 125 g
65-5305-01N Neckargold	65	UNT EXCL.	23-27	Medium	Yellow	Here is a vigorous yellow pole bean, easy to grow and providing a very good yield throughout the season. Sow 3 seeds in a small hole at the foot of a pole and soon you will be picking nice round pods of about 25 cm without having to bend.	4.59 \$ 50 s/p
65-5310-01N Neckarkonigin	65	UNT EXCL.	23-25	Medium	Green	Here is a vigorous green pole bean, easy to grow. See Nerkargold for characteristics.	4.59 \$ 50 s/p
65-5350-010 Scarlet Runner	65	TR EXCL.	16-18	Medium	Green	Young pods are edible. Also grown for the beauty of the flowers.	4.59 \$ 50 s/p
Bush bean - Italian type							
65-5272-010 Tapia	59	TR EXCL.	13-14	Medium	Medium green	A better version of the variety Ebro, thanks to it's thicker and less fibrous pods, and improved flavor. An excellent Romano type variety.	3.59 \$ 50 s/p

Mix Organic

Variety Code	Maturity (days)	Form.	Root (shape)	Variety Description	Price 1 Pkg
Beet					
65-0885-01N Soldier	35		-	A beet grown especially for the beauty of its dark red foliage resembling that of the Swiss chard. Harvest leaves when young and add them to your salads for a touch of colour, originality and vitamins.	4.59 \$ 175 s/p
65-0827-010 Babybeet F1	55		Round	The perfect size for baking or steaming whole. At last, here is a real baby beet! Unlike large beets harvested young, Babybeet will remain small, round, smooth and sweet, with a small taproot, all the way to maturity.	4.59 \$ 175 s/p
65-0840-010 Red Ace F1	55		Round	Among all beet varieties available, the productive Red Ace is the most consistently smooth and sweet. The high sugar content makes it a succulent favourite for both cooking and pickling.	3.59 \$ 175 s/p
65-0840-01B Red Ace F1	55		Round	Available in certified organic seed.	5.69 \$ 175 s/p
65-0840-250 Red Ace F1	55		Round	Available in 25 g / packet.	10.09 \$ 25 g
65-0840-25B Red Ace F1	55		Round	Available in 25 g / packet.	11.09 \$ 25 g
65-0800-01B Mix Organic	55-60		Round	For an original assortment, sow rows of this blend of beets. You will harvest a nice selection of red, yellow and red and white striped roots.	5.69 \$ 175 s/p
65-0850-01N Detroit Suprême	60		Round	This highly productive variety is an old time favourite on the market. Dark red in color, nice round and smooth roots with little zoning and good top attachment.	3.59 \$ 175 s/p
65-0850-25N Detroit Suprême	60		Round	Available in 25 g / packet.	10.09 \$ 25 g
65-0887-01B Guardsmark (Chioggia)	60		Oval-Round	An improved version of the well-known Chioggia beet. The same round shape, characteristic white zoning that holds even after cooking and the same distinctive peppery taste. You will select Guardsmark for its uniformity and great vigour.	5.69 \$ 175 s/p
65-0895-01N Avalanche F1	60		Round	Avalanche is a pure white beet that exhibits a mild, sweet taste with a uniform root shape and no reddish tinge, making for more attractive produce. You will rave about the raw eating quality when you will discover there is no earthy beet taste, or any bitter aftertaste. Grow them with gold and red beet for an attractive roots trio. 2015 AAS Winner.	4.59 \$ 175 s/p
65-0880-010 Taurus F1	60		Cylindrical	A nice large smooth, cylindrical and really uniform root, easy to clean and to peel. Ideal for abundant and tasty preserves. When fully grown the root measures 15 to 17 cm long.	5.69 \$ 175 s/p
65-0880-250 Taurus F1	60		Cylindrical	Available in 25 g / packet.	11.09 \$ 25 g
65-0889-01B Touchstone Gold	60		Round	A very nice round root, orange on the exterior and bright yellow inside. This beet has a very sweet and tender taste, a nice shape with little zoning. Perfect for noteworthy pickled beets!	5.69 \$ 175 s/p

Kosaro Y.R. F1

Bronco Y.R. F1

Reaction Y.R. F1

Klimaro F1

Melissa Y.R. F1

Variety Code	Maturity (days)	Form.	Colour	Fruit weight (kg)	Variety Description	Price 1 Pkg
Cabbage - Summer						
65-3419-01N Kosaro Y.R. F1	62		Red	0,9-1,4	It presents a well wrapped round and dark red head , very uniform. It has a good tolerance to cracking which allows to keep your cabbages in the garden before harvesting them.	6.79 \$ 50 s/p
65-3548-01N Bronco Y.R. F1	65		Green	1,8-2,2	This mid-early variety will produce high quality cabbage all summer long. Heavy heads: 2 to 2.5 kg. Appealing green and waxy leave. Holds well in the garden. Sweet taste. Very good disease tolerance. The best in its class.	5.69 \$ 50 s/p
Flat Cabbage - Summer						
65-3578-010 Gunma Y.R. F1	85		Green	1,8	Gunma is a flat cabbage with thin leaves that detach themselves very easily. It is perfect for cabbage rolls or original wraps. Raw or cooked, it keeps its surprisingly sweet taste.	6.79 \$ 50 s/p
Cabbage pointed - Summer						
65-3570-01B Caraflex Y.R. F1	63		Green	0,4-1,4	This mini cabbage has an original pointed shape and a great sweet taste with very tender leaves. Coleslaw like no other. To get a 500 g head, reduce the spacing between plants in the row to 20 cm and use a fertilizer without nitrogen.	6.79 \$ 25 s/p
Cabbage - Winter						
65-3620-01B Lennox F1	92		Green	2-2,5	Well known variety from growers because of its sweet taste and tender texture, which is unusual for a winter cabbage. Lennox produces round, solid and well wrapped heads that will store for a long time.	6.79 \$ 50 s/p
65-3623-01B Reaction Y.R. F1	92		Green	2-2,25	A mini winter cabbage that can easily keep for 6 months in a cold storage. Add vitamins to your winter meals. In order to get a nice and firm 500 to 700 g head, reduce the spacing in the row between plants to 20 cm and use a fertilizer without nitrogen.	6.79 \$ 25 s/p
65-3487-01N Klimaro F1	110		Red	2,5-3	A versatile variety, Klimaro can be harvested when small or large. It has a small core and a fantastic internal red colour that will stand well. It has an excellent flavour, particularly suited for coleslaw.	6.79 \$ 50 s/p
Cabbage - Savoy						
65-3030-010 Melissa Y.R. F1	75		Green	1-1,5	This beautiful, dark green and heavy headed Savoy cabbage will surprise you. A great source of nutritive elements.	6.79 \$ 50 s/p

Broccoli					
65-1407-010 BR 16 F1	75	TR EXCL.	Spring and fall	An early variety, very compact with a nice medium green dome shaped head. Good heat tolerance.	6.79 \$ 75 s/p
65-1496-01N Mini Sibsey F1	85	UNT EXCL.	Spring-summer-fall	Dark green, stem broccoli. Starts out similar to a regular crown broccoli but after harvesting the first crown, easy-to-harvest tender, and tasty side shoots continue to appear long into the season. Tolerant to warm temperature bolting.	7.89 \$ 75 s/p
65-1472-01N Diplomat F1	87	UNT EXCL.	Summer and fall	A vigorous mid-season broccoli in shades of blue with a nicely domed head. Fill your plate with delicious antioxidants.	4.59 \$ 75 s/p
Brussels sprouts					
65-2844-010 Divino F1	116	TR EXCL.	Fall	Will produce medium sized sprouts, on a strong and erect plant. The taste will be sweeter if you harvest them after a couple of frosts.	10.09 \$ 50 s/p
Cauliflower					
65-3800-010 All Season Mix	--	TR EXCL.	Spring and fall	A well-blended mix of selected quality varieties, some chosen for their earliness and others for their lateness, allowing season long harvests. Popular variety for the family garden.	6.79 \$ 50 s/p
65-3875-01N Fioretto 60 F1	60	UNT EXCL.	Spring and fall	Fioretto is a new long-stem cauliflower that you harvest as sticks. It has a sweet taste and a smoother texture than the traditional cauliflower. Each stick weighs between 10 and 20 grams. A new way of growing cauliflower in your vegetable garden.	7.89 \$ 20 s/p
65-3812-010 Minuteman F1	68	TR EXCL.	Spring and fall	Minuteman is a uniform and early cauliflower very productive and a high quality variety. It produces large, pure white heads well protected by upright leaves. Known for its excellent taste.	7.89 \$ 50 s/p
65-3831-01B Mardi F1	72	EXCL.	Spring-summer-fall	One of the very good varieties for our Nordic gardens, Mardi stands out for its sweet, nutty flavour and crisp consistency. The large, tightly packed heads grow on a large plant with well-covering foliage. Its rapid growth makes it a variety that is very well suited for spring, summer and fall harvests.	7.89 \$ 50 s/p
65-3872-01N Depurple F1	75	UNT EXCL.	Spring-summer-fall	Splendid lavender coloured cauliflower which keeps with cooking. A vitamin-rich curiosity on your plate.	6.79 \$ 20 s/p
65-3869-010 Cheddar F1 Orange	80	TR EXCL.	Fall	An ideal variety that will add colour to your garden! Produces orange curds that are smooth and well domed. High levels of beta-carotene. For optimal coloration, don't tie the curd.	6.79 \$ 20 s/p
65-3881-01B Veronica Y.R. F1 (Romanesco)	85	EXCL.	Fall	Romanesco type. Lime green pointed heads that show a nice uniformity. An interesting and unusual vegetable to grow.	6.79 \$ 20 s/p

Kale					
65-3133-01N SimplySalad Storm Mix	35		Mixture	Health in a pot. The first all-kale SimplySalad includes an attractive mix of textures and colours including purple, green and blue. This mix will last longer in containers than lettuce and won't bolt. Storm Mix can also be planted in the ground for all-season harvest.	7.89 \$ 10 s/p
65-3127-01N Black Magic	45		Dark blue	Rich, very dark blue kale with a rosette plant habit making it easy to harvest. Black Magic has a sweet flavor, a vigorous regrowth and a good uniformity. It also resists bug damage. Throughout the season, new leaves will appear, providing you with a continuous harvest.	6.79 \$ 50 s/p
65-3122-010 Darkibor F1	55		Dark green-blue	Early maturing, easy-growing kale for late summer and fall harvests. Darkibor has upright plant, finely curled leaves and good field holding ability. Richly textured leaves make the best kale chips with extra curls to better hold the seasoning. Delicious snacking!	6.79 \$ 50 s/p
65-3123-010 Starbor F1	55		Dark green-blue	This kale has dark green-blue leaves and produces compacts plants that resist yellowing. Delicious steam cooked.	6.79 \$ 50 s/p
65-3105-010 Redbor F1	55		Red	The first available deep red kale with leaves. A medium size, eye catching and productive plant. Used as an ornamental or edible bush in the garden or in the house. Excellent taste in soups.	6.79 \$ 50 s/p
Kohlrabi					
65-3211-010 Quickstar F1	52		Pale green	A nice round, slightly flattened, a pale green root that is smooth. Early variety with an excellent uniformity in shape and maturity. Quickstar is sweet, juicy and rich in vitamins and minerals. Sliced into sticks, it is a nutritious and a flavourful snack for the whole family.	6.79 \$ 50 s/p
65-3252-010 Kolibri F1	55		Purple	A purple exterior with white flesh hybrid produces round-flat bulb with medium tops. Good yield, a very nutritive and flavorful snack for the entire family.	6.79 \$ 50 s/p

Variety Code	Maturity (days)	Form.	Fruit size L x D (cm)	Flowering Type	Variety Description	Price 1 Pkg
Slicing Cucumber						
65-4229-01N Lisboa F1	50	UNT EXCL.	18 x 5	Parthenocarpic	A very early cucumber that stands out because of its internal cavity that is free of seeds, making it pleasant to eat and easy to digest. Parthenocarpic type, which means that it should be isolated from the other cucumber varieties in order to give the best possible quality fruits. Impressive yield of two fruits per internode.	7.89 \$ 10 s/p
65-4260-010 Sweet Success F1	50	TR EXCL.	30-36 x 6	Gynoeceious	Similar to the digestible Japanese varieties. Tender, non-bitter taste. Adapted for gardens or greenhouses.	7.89 \$ 10 s/p
65-4214-01N Bristol F1	52	UNT EXCL.	20 x 6	Gynoeceious	Great quality early table cucumber! Nice straight and dark green fruits. Plant tolerant to many viruses, powdery mildew and downy mildew. Produces an abundance of crunchy fruits.	6.79 \$ 20 s/p
65-4217-010 Rockingham F1	54	TR EXCL.	21 x 6	Gynoeceious	This cucumber is most appreciated by commercial growers, because it produces nice dark green, smooth and long fruits. Its seed cavity is small with a vigorous and healthy vine. Rockingham is tolerant to powdery mildew. A must to include in your plantings!	6.79 \$ 20 s/p
65-4258-01N Peticue F1	54	UNT EXCL.	18-23 x 6	Monoecious	Short vining slicing cucumbers bred to stay compact. The vines will use only 1/3 space of a standard variety. For the best tasting, crunchy-sweet cues, pick the fruits at 18–23 cm long.	6.79 \$ 10 s/p
65-4266-01N Martini F1 White	55	UNT EXCL.	13-15 x 4	Monoecious	Small cucumber characterized by its white exterior colour and early maturity. Its skin is so thin that the sweet and crunchy fruits do not need to be peeled. The plant, powdery mildew tolerant, has a high and continuous volume of fruits that has no bitterness.	6.79 \$ 10 s/p
65-4232-01N Diva	60	UNT EXCL.	20 x 6	Parthenocarpic	An All America 2002 Selection winner! This productive and high quality variety produces light green, spineless fruits with a smooth skin. Well known in the Middle East it has an unsurpassed flavour. Similar to the Sweet Crunch.	4.59 \$ 20 s/p
65-4238-01B Marketmore 70	63	EXCL.	23 x 6,5	Monoecious	This mid-season class variety offers outstanding fruits. They have a nice dark green color, a nice length and white spines. Excellent flavour and taste.	4.59 \$ 20 s/p
65-4240-010 Marketmore 76	63	TR EXCL.	23 x 6,5	Monoecious	Very popular open pollination variety for many years now. Still distinguish itself by its productivity, the straight and flavourful fruits.	4.59 \$ 20 s/p

Parthenocarpic : Produces a fruit without pollination, isolation required.
Gynoeious : The plant bears only female flowers. A few male seeds are included in the package.
Monoecious : The plant bears both female and male flowers.

Cucumber Libanese type						
65-4233-01N Green Light F1	55	UNT EXCL.	7-10 x 3	Partheno-carpic	This mini jewel is an excellent cucumber. It offers a high yield, an attractive fruit, an early maturity and a better flavour than the varieties it has been compared to. For an easy and abundant harvest, it is recommended to stake Green Light or to climb it on a vertical structure. The plant can produce up to 40 thornless fruits. Harvest between 7 cm and 10 cm long for a flavour at its best, without even needing to peel the fruits. A seedless, parthenocarpic variety that does not need to be pollinated. 2020 AAS Winner	4.59 \$ 20 s/p
65-4230-01N Magic F1	55	UNT EXCL.	14-16 x 3	Gynoeious	A Libanese type cucumber without the bitter aftertaste. It produces slightly pointed and smooth fruits with a shiny dark green skin. It can reach from 14 to 16 cm in length.	5.69 \$ 20 s/p
65-4276-01N Mini Munch F1	55	UNT EXCL.	10 x 3	Gynoeious	Delicious little parthenocarpic cucumber to be grown in a container or on a trellis. Tons of tasty, crunchy fruits for great salads or snacks. No need to peel the fruits, the skin is tender and it has a seedless interior. Productive even in cool conditions.	11.09 \$ 10 s/p
Cucumber Pickling						
65-4420-01N Petipiket F1	45	UNT EXCL.	8-13	Monoecious	Petipiket is a short vining bush pickle cucumber that has been bred to stay compact. Its vines reach half the size of other regular pickles, which is space efficient for your garden. For best results, the fruits should be harvested at 8-13 cm long for best results.	6.79 \$ 20 s/p
65-4477-010 Corentine F1	50	TR EXCL.	10-12 x 2,5	Gynoeious	Corentine is a smooth pickling cucumber combining good early yield with excellent firmness. The fruits have a perfect shape and a nice dark green colour.	5.69 \$ 20 s/p
65-4480-01N Salt and Pepper	50	UNT EXCL.	7-12 x 2,5	Gynoeious	White-skinned pickling cucumber with Powdery Mildew tolerance. Eye-catching colour and excellent flavour. You won't need to add salt and pepper to this unique miniature cucumber. It has just the right amount of natural flavour that is phenomenal. Ideal for pickling or snacking.	5.69 \$ 20 s/p
65-4424-01N Eureka F1	55	UNT EXCL.	10-12 x 2,5	Monoecious	Outstanding variety because of its compact plant and high tolerance to diseases. Produces dark green fruit, similar to small slicers. Very productive. An appealing and flavourful fruit.	3.59 \$ 20 s/p
65-4423-010 Arabian F1	55	TR EXCL.	10-12 x 2,5	Gynoeious	Short vine variety, dark green in color with good lenght. To be eaten fresh or for pickling.	3.59 \$ 20 s/p

Swiss chard					
65-1064-01N Bali Red	58		Dark green	Superb swiss chard with bright red petioles.	4.59 \$ 125 s/p
65-1012-01N Silverado	58		Dark green	An excellent source of vitamin A and C, iron and folic acid, Swiss chard is perfect as a side dish with meat, poultry or fish. Silverado has a dark green leaf and a white stalk and is slow to bolt even in hot weather.	5.69 \$ 125 s/p
65-1054-01N Celebration Multicolour	62		Dark green	High percentage of red, yellow, orange and pink petioles, very little of white. Ideal to add colours in your recipes.	5.69 \$ 125 s/p
Chicory - Italian Raddichio					
65-2235-01N Indigo F1	70 		Red	One of the earliest varieties of radicchio on the market. Radicchio is a vegetable that is growing in popularity among home gardeners. Indigo is outstanding for its great uniformity and quality, it produces good-size, round, dense heads that are bright deep red with very white veins. This super yielder will add color and zest to your salads.	10.09 \$ 50 s/p
Cress					
65-4810-01N Cress Extra Curled Alenois	20		Green	Vigorous selection with a spicy flavour. Best if harvested at the 3-4 leaf stage.	3.59 \$ 375 s/p
Spinach					
65-5052-01N Stanton F1	50		Dark green	Stanton is an upright, dark green semi-Savoy, round leaf spinach. A nutty taste, as a bonus, makes it perfect for salads.	4.59 \$ 350 s/p
65-5035-010 Sioux F1	50		Dark green	Versatile, semi-quick growing spinach variety with a proven track record in hot conditions. The dark green leaves are thick but flexible and semi-blistered. Perfect for growing both baby spinach and mature leaves. Replaces the Stanton variety.	4.59 \$ 350 s/p
65-5053-01B Tundra F1	50		Dark green	A superior spinach for tender, succulent baby leaf crops. Tundra produces glossy dark green, semi-savoyed, oval leaves that are eye-catching and tasty. The upright plant habit and stem length makes harvest clean and easy. Disease tolerant. A stellar crop of hearty greens.	4.59 \$ 350 s/p

White Jewel F1

Joi Choi

Bilko Y.R. F1

Scansie F1

Match

Bellezia

Roquette

Wasabi

Variety Code	Maturity (days)	Form.	Foliage color	Variety Description	Price 1 Pkg
Oriental vegetables					
65-2695-010 White Jewel F1	35		Dark green	Dwarf Pak Choi with compact and tight body. Very uniform with dark green, wrinkly leaves and thick white stems. White Jewel will grow about 10-12 cm tall and has high heat and cold tolerance. Add it to your sautés or have it as a side dish.	6.79 \$ 50 s/p
65-2690-010 Joi Choi F1	50		Green	Pak Choi type, non-bolting hybrid and productive variety. Vigorous plants of rapid growth, with nice long white stems and dark green foliage. Regularly used in Chinese cuisine. This cabbage will do well when cultivated during the summer or under dry conditions.	3.59 \$ 50 s/p
Oriental vegetables - Chinese cabbage					
65-2617-01B Bilko Y.R. F1	60		Green	A large and heavy light green cabbage. It can weigh up to 2.5 kg.	6.79 \$ 50 s/p
65-2606-010 Scansie F1	65		Purple red	A special bright purple-red Chinese cabbage! It produces heads of 1.2 kg to 1.5 kg in size coloured all the way to the heart. Good tolerance to tip burn and bolting.	10.09 \$ 25 s/p
Corn Salad					
65-5812-010 Match	45		Green	Flexibility and great quality of leaves. Match is an easy-to-grow crop that can produce a good harvest over a long period. This modern variety is also slow to have the leaves turn yellow. Replaces the Valgros variety.	3.59 \$ 200 s/p
Rocket (Arugula)					
67-8123-01B Bellizia	30-40		Dark green	Arugula Bellezia is a beautiful variety with an impressive tolerance to downy mildew. Striking dark green and highly serragated leaves give Bellezia an elegant look. Excellent bolting tolerance, and excellent shelf-life.	5.69 \$ 100 s/p
67-8110-01N Rocket	30-40		Green	Cultivated arugula, with a rich and peppery taste, without being too spicy. Good tolerance to bolting.	5.69 \$ 100 s/p
67-8104-01N Wasabi	30-40		Dark green	Wasabi rocket is a new variety of small young shoots that will tickle your nose, such as the mustard bearing the same name. Its small leaves, with delicate serrated edges, are at the same time tender and spicy. It will give a «punch» to your recipes.	5.69 \$ 100 s/p

LETTUCE

Buttercrunch

Edox Red

Rhapsody Green

Eazy Leaf Bellevue Red

Bauer Green

Grand Rapids Green

New Red Fire Red

Bergam's Green

Variety Code	Maturity (days) 	Form.	Variety Description	Price 1 Pkg
Lettuce Butterhead				
65-5707-01B Buttercrunch	55		Popular variety. Crunchy, tasty leaves. Tolerates heat. Slow to bolt. A heavy medium-size head.	3.59 \$ 600 s/p
65-5734-010 Edox Red	55		A nice Butterhead lettuce in attractive colours of green and red. Its delicate leaves with a subtle flavour make a lovely presentation. An easy to grow lettuce all season long.	4.59 \$ 200 s/p
65-5706-01N Rhapsody Green	55		A nice early lettuce with dark green, glossy, mouth-watering leaves. This fresh and tasty variety is tolerant to tip burn. A perfect choice for the garden.	6.79 \$ 200 s/p
Lettuce - Oak Leaf				
65-5645-01B Eazy Leaf Bellevue Red	55		Dark-red oak-leaf lettuce with a smooth texture and a pleasant sweet taste. Harvested as baby leaves or at its full maturity, Bellevue embellishes any salad. Late bolting and tolerance to downy mildew. Maturity: Baby-25 days / Full-55 days.	5.69 \$ 25 s/p
65-5639-01B Bauer Green	55		Bauer will please with its darker green colour and nicely uniform compact size that can be grown almost anywhere; in-ground, containers, or window boxes. Harvest at the baby leaf stage or grow into the rosette-shaped full-sized head. The dense heads produce a plethora of sweet, crisp sturdy leaves. 2022 All America Selection Winner.	4.59 \$ 200 s/p
Lettuce - leaf				
65-5615-01N Grand Rapids Green	55		Everyone's favourite. This is the best-known loose-leaf lettuce variety. The medium-green, frilled leaves are tender and crisp; the plant is vigorous and disease-resistant.	3.59 \$ 600 s/p
65-5615-20N Grand Rapids Green	55		Available in 10 g/packet.	7.89 \$ 10 g
65-5667-01B New Red Fire Red	55		A feast for the eyes as well as for the palate. The most ruby red loose-leaf variety in our selection. She produces a beautiful loose-leaf head, crisp and sweet, with proven bolt resistance. This lettuce can be grown in both cool and warm weather conditions without becoming bitter.	3.59 \$ 200 s/p
65-5619-01B Bergam's Green	58		Large size leaf lettuce, that is just a bit later than most other varieties. Slow to bolt and tolerant to tip burn, she will soon become your best variety.	4.59 \$ 200 s/p

Mesclun Mix Improved

SimplySalad Alfresco

SimplySalad City Garden

SimplySalad Wonder Wok

Pomegranate Crunch red

Xalbadora Green

PYB 7101

Paris Island Select

Variety Code	Maturity (days) S	Form.	Variety Description	Price 1 Pkg
Mesclun Lettuce				
65-5601-01B Mesclun Mix Improved	28	EXCL.	This European approach to growing salad greens offers you a choice mix of the best sweet lettuces and tangy, tender greens in just the right proportions. Gather leaves when young for delectable flavour!	3.59 \$ 600 s/p
65-5602-01N SimplySalad Alfresco	30	UNT EXCL.	A blend of lettuces, arugula, chicory and radicchio. A taste of the Mediterranean. This blend takes around 30 days to reach maturity and can be cut up to three times.	7.89 \$ 25 s/p
65-5603-01N SimplySalad City Garden	30	UNT EXCL.	Our most traditional blend of mild lettuces. This blend takes around 30 days to reach maturity and can be cut up to three times.	7.89 \$ 25 s/p
65-5605-01N SimplySalad Wonder Wok	30	UNT EXCL.	Here is a new mix of mesclun made of Asian greens such as mustards, kale and bok choy. This variety combined in a multi-species pellet produces a well-balanced salad mix with only one sowing.	7.89 \$ 25 s/p
Lettuce - Mini romaine				
65-5770-01B Pomegranate Crunch red	55	EXCL.	Here is a mini romaine lettuce of a bright poppy red color. Pomegranate Crunch reaches only about 15 cm in height, but its compact and dense head will surprise you by the high yield of leaves. The taste is slightly sweet and the texture smooth and crispy. To be tried as a mix with the Eazyleaf varieties!	7.89 \$ 25 s/p
65-5776-01B Xalbadora Green	55	EXCL.	Mini romaine with high leaf count. Xalbadora performs great against tip burn and has a wide adaptability.	7.89 \$ 25 s/p
Lettuce - Crisphead				
65-5765-010 PYB 7101	90	TR EXCL.	A large size Iceberg type lettuce, crisp and delicious. Presented last year to our commercial growers, it was an immediate popular choice because of its good tolerance to heat and diseases. Guaranteed quality.	3.59 \$ 200 s/p
Lettuce - Romaine				
65-5787-01B Paris Island Select	75	EXCL.	Improved selection, with very attractive heads that have a superior dark green colour and contrasting, blanched interior. It features a crispy Savoy leaf texture and sweet, mild flavour. A delight!	3.59 \$ 600 s/p

Garoy

Imperial Star

Guelph Millenium F1

Tango

Balena F1

Golden Husk

Little Lantern

Picador F1

Conservor F1

Purple Top White Globe

Variety Code	Maturity (days)	Form.	Variety Description	Price 1 Pkg
Peanut				
65-0110-01N Garoy	100 		This variety produces pods slightly smaller than those of regular varieties but they are of the finest quality. Flower stems drop to the ground and develop clusters of nuts, under the ground surface.	5.69 \$ 50 s/p
65-0110-28N Garoy	100 		Available in 125 g/packet.	14.49 \$ 125 g
Artichoke				
65-0212-01N Imperial Star	120 		This variety produces pods slightly smaller than those of regular varieties but they are of the finest quality. Flower stems drop to the ground and develop clusters of nuts, under the ground surface.	11.09 \$ 20 s/p
Asparagus				
65-0456-01N Guelph Millenium F1	Perennial		Variety developed by the University of Guelph in Ontario. It produces very uniform and 100% male spears. Good tolerance to cold. This variety has shown the highest yields over the years.	4.59 \$ 20 s/p
Celery				
65-2035-01B Tango	90 		A superb variety of celery in an apple green colour. Its stalks are smooth and crunchy with no bitter taste.	7.89 \$ 150 s/p
Celeriac				
65-2110-01B Balena F1	105 		Balena has a round, very white and smooth root. Good tolerance to bolting. It will keep very well for a long period, in cold storage.	6.79 \$ 50 s/p
Ground Cherry				
65-9297-01N Golden Husk	65 		Small sweet fruit, recommended for jams.	4.59 \$ 40 s/p
65-9296-01N Little Lantern	70 		Smaller, more compact variety of ground cherry, well suited for containers. Smaller fruits (11-14 mm) with lightly colored husks. Good ramification and short internode spaces.	7.89 \$ 20 s/p
French Shallot (Seeds)				
65-6783-010 Picador F1	88 		A lovely round, brownish-pink French shallot. Its distinctive flavour makes it a choice condiment.	6.79 \$ 100 s/p
65-6789-01B Conservor F1	90 		An early variety with great yield potential, Conservor is easy to grow from seed. Elongated pink-brown exterior bulb with a nice pale pink flesh. It has a length of 5 to 7 cm and is easy to peel. Quite a flavorful shallot, be cooked or raw.	6.79 \$ 100 s/p
Turnip				
65-6420-01B Purple Top White Globe	57 		Popular variety. Round roots are 7.5 to 10 cm in diameter. Attractive white and violet colour. Flesh is white, mild and crunchy. Delicious!	3.59 \$ 275 s/p

Bella Luna F1

Elisa F1

Albion F1

Lancelot

Bandit

Clancy Red F1

Giant Victoria

Laurentien Thomson

Mammouth Sandwich

Karikachi No.3 F1

Variety Code	Maturity (days)	Form.	Variety Description	Price 1 Pkg
Japanese Turnip				
65-6410-01N Bella Luna F1	40		Shiny, pure white, Japanese turnip that can be harvested at a small size or it can hold until medium size (3.5 to 6 cm). Very good flavor, even if eaten raw.	3.59 \$ 275 s/p
Okra				
65-6811-010 Elisa F1	58		For the okra amateur. Best adapted to our northern climate, Elisa produces fruits 9-15 cm in length, with very few seeds, and will not become fibrous. Elisa is early and more productive than other okra varieties.	7.89 \$ 25 s/p
Parsnip				
65-7043-01N Albion F1	115		Early parsnip. Albion produces nice, white roots with a sweet taste. Its shallow collar makes it easy to clean.	3.59 \$ 200 s/p
Leek				
65-7615-01N Lancelot	90		Lancelot is the ideal leek for all your fall dishes. With its bluish and erect foliage, Lancelot produces white stalks that can reach up to 30 cm in length. Lancelot can also be sown tight for a summer harvest of small, tender and juicy leeks.	4.59 \$ 165 s/p
65-7693-01B Bandit	118		Sturdy winter harvest leek. Late to bolt, will remain in good condition for a long time in your garden and can be stored.	6.79 \$ 165 s/p
Potato				
65-7905-01N Clancy Red F1	90-110		Our first potato from seed! The sterile seed eliminates the potential of introducing disease to the garden, is easier to store and will keep longer than potato tubers. Clancy produces compact and healthy dark green plants with blue flowers. Resulting spuds are a mix ranging from red to rose-blush skin tones with flesh of creamy white and yellow. Good texture and flavour (a happy medium between a yellow-skinned potato and a Russet), ideal for mashing or boiling. Start as transplants. Winner of AAS 2019.	11.09 \$ 50 s/p
Rhubarb				
65-8410-01N Giant Victoria	Perennial		A variety with great development, very productive, which offers large petioles with green flesh, of very good taste quality. Sowing April-May or August-September for a first harvest 2 years later.	5.69 \$ 50 s/p
Rutabaga				
65-6475-01N Laurentien Thomson	85		A round purplish root with a great taste for all your slow-cooked recipes. Long storage life if kept in a cool place.	3.59 \$ 275 s/p
Salsify				
65-8620-01N Mammouth Sandwich	150		Conical, cream-white roots. They add an oyster taste to soups.	4.59 \$ 125 s/p
Soya Edamame				
65-2670-01N Karikachi No.3 F1	90		A soybean rich in isoflavones, a chemical that helps prevent certain types of cancer. Just like all other soy plant, it requires a well-drained soil heated at 15°C when seeding and in full sun. Harvest when the pods are plump and still bright green. Cook beans in salted boiling water for 5 minutes and add to your salads and stir-fries.	4.59 \$ 50 s/p

MELON

Sugar Cube F1

Magnifisweet F1

Golden Crown F1

Yellow Baby F1

Stargazer F1 Red

Amarillo F1 Yellow

Serval F1 Red (mini)

Micro Tyrion F1

Ace F1

Honeycomb F1

Variety Code	Maturity (days)	Form.	Fruit Weight (kg)	Variety Description	Price 1 Pkg
Melon - Cantaloupe					
65-5902-01N Sugar Cube F1	68		0,7-1,7	Sugar Cube is a small 1 kg melon with big taste! Its deep orange flesh, amazing sugar content (14% Brix) and incredible taste make it a must for single servings. A real treat in the garden.	6.79 \$ 15 s/p
65-5930-010 Magnifisweet F1	74		1,8-2,2	This variety is characterized by a high yield and super flavour. Its slightly netted, deeply ribbed fruits have very sweet, thick salmon-orange flesh. What a winner!	6.79 \$ 20 s/p
Watermelon - seeded					
65-6010-01N Golden Crown F1	68		2-2,6	Fruit is 16 to 17 cm in diameter. External peel is golden yellow. Flesh is intense red and very sweet, with seeds. Ideal for regions with a short growing season. Compact plants.	11.09 \$ 20 s/p
65-6020-01N Yellow Baby F1	70		2,5-3,5	Seeded yellow watermelon with such a sweet and crispy flesh that you won't be able to stop eating it! Shows a good tolerance to cracking. A nice alternative to red watermelons.	6.79 \$ 20 s/p
65-6049-010 Stargazer F1 Red	85		11-12	Stargazer is like a big old-fashioned watermelon, crispy and sweet, but with a more uniform shape and weight. It has elongated fruits that can weigh between 11 and 12 kg and a rind with wide dark green stripes. Everything you need when the summer is hot.	7.89 \$ 15 s/p
Watermelon - seedless					
65-6019-010 Amarillo F1 Yellow	75		6,5-7	Amarillo is a nice round melon, medium green with pale green stripes, with a crisp and sweet yellow flesh. It is recommended that seedless varieties be transplanted, rather than direct seeding. Pollinator plant required.	16.59 \$ 10 s/p
65-6054-010 Serval F1 Red (mini)	85		1.8-2.7	Serval is a mini seedless watermelon that reaches about 1.8-2.8 kg in weight. The red flesh is sweet and crispy. At last a watermelon that you can eat in a decent amount of time and that doesn't take all the space in the refrigerator. Pollinator plant required.	16.59 \$ 10 s/p
65-6057-01N Micro Tyrion F1	85		1	Seedless micro watermelon of about 1 kg. Its rind is black and smooth, and its red flesh is sweet and crispy. A big pleasure in the vegetable garden. Pollinator plant required.	16.59 \$ 10 s/p
Watermelon pollinator					
65-6098-010 Ace F1	70		----	This variety was developed as a non-harvest pollinator for seedless watermelon. It produces long, thin, very sturdy vines with small leaves. The plant habit is ideal as it brings the pollinator into close proximity with the seedless melon. It blooms profusely, thus providing an abundance of pollen that will ensure a good harvest. P.S. In order to insure a good pollination, it is essential to plant in your garden one plant of pollinator Ace for every two (2) seedless watermelon plants.	6.79 \$ 5 s/p
Melon - Honeydew					
65-5947-010 Honeycomb F1	75		3-3,5	Treat yourself to this early heavy fruit melon. Soft skin, aromatic lime green flesh.	7.89 \$ 10 s/p

Echalion				
65-6798-01N Creme Brulee F1	90		First ever echalion to become an All America Selection Winner. An echalion is a cross between an onion and a French shallot, offering the perfect combination of yield and flavour. Easy to grow and delicious to cook and taste.	6.79 \$ 100 s/p
Bunching onion				
65-6720-01B Parade	65		Superb selection with a long, white, non-bulbous shaft. Stem is more bluish green. Cleans easily. High yield variety	3.59 \$ 200 s/p
65-6738-010 Red Baron F1	65		Here is a superb selection with a long dark red non-bulbous shaft. Good zesty flavour.	3.59 \$ 200 s/p
Spanish Onion				
65-6673-010 White Wing F1	108		White Wing is a pure white onion with excellent firmness and good skin retention. It has the potential for big size bulb, especially from transplant.	6.79 \$ 165 s/p
65-6668-010 Kelsae Sweet Giant	110		Ultra large onion. Firm and heavy onion with a sweet and tasty flesh. Keeps for a short period. Something different for the home gardener.	10.09 \$ 165 s/p
65-6649-010 Dawson F1	112		Large size, early Spanish onion. Its small neck closes well for a good storage of the bulbs.	5.69 \$ 165 s/p
65-6652-01N Delgado F1	120		Delgado has an even, very firm and round bulb. A late bloom that can be stored for many months.	6.79 \$ 165 s/p
Yellow onion				
65-6613-010 Ridge Line F1	100		Ridge Line features a good balance of earliness, size and storage. This mid-early onion is globe shaped, mostly jumbo sizing and shows a good dark skin. Ridge Line adapts well for transplants as well as direct seeding. It has intermediate resistance to pink roots and basal rot. Necks are medium to small with excellent curing for long-term storage. A quality addition to the garden.	5.69 \$ 165 s/p
65-6619-01N Lasalle F1	100		A dark brown onion, Lasalle will keep its skin well and can be stored up to eight (8) months under good conditions. With sufficient space to grow, the percentage of big caliber is high.	5.69 \$ 165 s/p
Pink onion				
65-6681-010 Blush F1	105		Unique pink specialty onion! Blush has mostly jumbo size bulbs, is easy to grow and store with its thick and strong skin. Once cut, it shows nice light-purple rings.	6.79 \$ 165 s/p
Red onion				
65-6682-010 Red Emperor F1	88		Here is the earliest red onion ever seen! Because of its genetic (intermediate days), it is very important to grow it as a transplant and transfer it in your garden as early as possible. You will then be able to harvest onions as soon as the end of July.	6.79 \$ 165 s/p
65-6687-01B Monastrell F1	90		Early, dark red and of high caliber onion, Monastrell has great storage capacity. It can be cultivated from transplant or early direct seeding. To be harvested as soon as matured.	6.79 \$ 165 s/p
65-6693-01N Red Bull F1	115		This delicious onion maintains its dark red colour almost to its centre. Its strong skin ensures long shelf life. 7 to 8 cm in diameter.	5.69 \$ 165 s/p
65-6696-01B Red Carpet F1	116		Magnificent magenta interior rings make this an especially gorgeous red onion. Tight bulbs of 8 cm to 10 cm in diameter that store very well. Rich colour and flavour!	6.79 \$ 165 s/p

Hot Pepper						
65-7319-01N Pot-A-Peno F1	55	UNT EXCL.	Jalapeno	8-10 x 2.5	Fun new jalapeno pepper with a compact habit perfect for growing in containers and hanging baskets. Plant sets plentiful small, green jalapeno fruits that have a traditional spicy zip. Or leave the fruits on the vine a few extra weeks and they will ripen to red for a sweet, spicy flavour. A unique trait of Pot-a-peno is how the fruit hangs down beneath the plant making it very easy to harvest without damaging the appearance or productivity of the plant. 2021 All America Selection winner.	10.09 \$ 20 s/p
65-7310-01N Chilly Chili F1 Patio Collection	55	UNT EXCL.	Chili	5 x 1	A family-friendly ornamental pepper with exceptional garden performance. Chilly Chili, as the name implies, is a non-pungent fruit. The "heat" was eliminated from the pepper by crossing. The fruit changes colour from yellow to orange, then red at maturity. Chilly Chili is extremely heat tolerant.	10.09 \$ 20 s/p
65-7308-01N Apache F1 Patio Collection	58	UNT EXCL.	Chili	5-7 x 1	Mini hot red peppers (5-7 cm) with a delicious spicy taste.	7.89 \$ 20 s/p
65-7311-01N Cayennetta F1 Patio Collection	58	UNT EXCL.	Chili	8-10 x 2	Chili type pepper that grows into a very well branched trailing plant, ideal for a hanging basket or a patio planter. What makes this variety unique is its very good tolerance to cold as well as its dense foliage cover that protects the fruits from the sun. Heavy yield of mildly hot peppers.	10.09 \$ 20 s/p
65-7322-01N Early Jalapeno	65	UNT EXCL.	Jalapeno	9 x 4	Early. The mildest of the Jalapeno type. Thick walls. Ideal for salsa. Harvest spreads from summer to fall.	3.59 \$ 20 s/p
65-7332-010 Arapaho F1	68	TR EXCL.	Cayenne	15 x 3	Cheyenne is our earliest Cayenne. It gives a high yield of long and slender fruits on a compact plant. The fruits will turn from pale green to vibrant red at maturity. Medium pungency.	10.09 \$ 20 s/p
65-7376-010 Time Bomb F1	68	TR EXCL.	Cherry	3,5 x 4,5	Here is a cherry type hot pepper red in colour and pleasantly hot. Will turn red in mid-season.	6.79 \$ 20 s/p
65-7350-01N Primero Red F1	75	UNT EXCL.	Habanero	8 x 3.5	The earliest ripening habanero on the market! They have about one third the heat of standard habaneros, letting gardeners appreciate their rich flavour.	7.89 \$ 20 s/p
65-7307-01N Basket of Fire F1 Patio Collection	80	UNT EXCL.	Chili	5-7 x 1	An avalanche of small, very hot and colorful fruits, from deep purple to cream to orange and to bright red when mature. Basket of Fire has a unique plant habit making it the perfect choice for hanging baskets and containers. The plants have a good tolerance to cooler weather. Harvested fruits will spice up your dishes until late in the fall. The fruits are also easy to dry.	10.09 \$ 20 s/p
65-7385-01N Gorria	80	UNT EXCL.	Espelette	9-15 x 3	This Espelette type pepper is European pepper with a great reputation. Try it yourself, the plants can grow to be as much as 1 meter high. A well balanced hot pepper, with a score of 4 on the Scoville scale, which is between the Cayenne pepper and the sweet pepper.	7.89 \$ 10 s/p
65-7387-01N Mamba Red F1 Patio Collection	80	UNT EXCL.	Chili	6 x 2,5	Mamba Red is an upright-growing pepper plant with mild spicy fruits. The glossy, fleshy fruits turn from a trendy black to a luscious red when ripening.	10.09 \$ 20 s/p
65-7300-010 Hot pepper Mix	65-80	TR EXCL.	Mix	Various	This blend contains the following hot peppers: Early Green Jalapeno, Small Red Narrow (Cayenne), Arapaho F1 (Cayenne), Hot Sunset F1 Yellow, Gorria Red.	3.59 \$ 20 s/p
65-7305-01N Bhut Jolokia	85	UNT EXCL.	Bhut Jolokia	6-8 x 2,5-3	The 2007 Guinness World Records book certified Bhut Jolokia as the hottest pepper in the world at over 1 million Scoville units. Originally from India, it has rough dented fruits, 6-8 cm long by 2.5-3 cm wide and thin skin. Fiery hot flavour. The seeds and fruits should be handled with extreme caution.	10.09 \$ 20 s/p

Sweet Pepper - Banana						
65-7290-010 Sweet Banana	63	TR EXCL.	Yellow/red	18 x 4	A popular variety. This long, slender, sweet banana pepper is very productive in the garden.	3.59 \$ 20 s/p
Sweet Pepper - Bell						
65-7210-01N Liberty Belle F1 Patio Collection	55	UNT EXCL.	Yellow	10-12 x 4	Outstanding new patio pepper with a naturally dwarf habit that makes it perfect for use in patio containers. Large bright yellow fruits, well shaped and very sweet. A strong variety that withstands intense heat without fruit damage or diseases.	7.89 \$ 20 s/p
65-7236-01N Classic F1	65	UNT EXCL.	Green to bright red	9,5 x 9,5	A variety that will produce a greenhouse quality fruit in your garden. Very smooth and uniform fruits that turn from green to a beautiful red, with thick and juicy walls.	6.79 \$ 20 s/p
65-7234-01N Socrates X3R F1	65	UNT EXCL.	Green/red	11 x 11	Outstanding variety that will quickly give home gardeners the highest % of large red peppers. Colour transition is much quicker. A dependable variety with beautiful bright red fruits. High yielder.	11.09 \$ 20 s/p
65-7240-010 Greenbell F1	67	TR EXCL.	Green	11 x 9,5	Average in size, the productive plants give a harvest of large green fruits with thick walls. The fruits are of a better quality than those of Bell Boy.	6.79 \$ 20 s/p
65-7289-010 Giant Marconi F1	68	TR EXCL.	Bright green, red	18 x 8	Superb variety that can be used for grilling, roasting, frying, salads, salsa and hot dishes. The large, tapered green pepper will mature to red very rapidly, has high disease tolerance and is a high yielder.	10.09 \$ 20 s/p
65-7295-010 Tequila F1	68	TR EXCL.	Ivory to lilac	10 x 9,5	Very consistent. High production. Nice attractive lilac color.	6.79 \$ 10 s/p
65-7276-010 California Wonder	70	TR EXCL.	Medium to dark green	11 x 9,5	Popular variety often used by home gardeners. Thick wall. Tasty!	3.59 \$ 20 s/p
65-7259-010 Delirio F1	70	TR EXCL.	Orange	10 x 10	The large sized orange pepper varieties are not common, but you will be very happy with this Delirio variety. It produces large size fruits of great quality, similar to greenhouse peppers.	10.09 \$ 15 s/p
65-7279-01N Early Sunsation X3R F1	70	UNT EXCL.	Bright yellow	10 x 10	Early Sunsation is a unique, early variety that consistently produces 3 or 4 lobed, nicely shaped bell fruit. The green to yellow, medium-large. A high yielder, this sweet variety maintains firmness at the mature yellow stage.	10.09 \$ 20 s/p
65-7294-01N Dragonfly F1	72	UNT EXCL.	Purple	8,5 x 8,5	Beautiful purple peppers that have thick and sweet walls. This pepper transforms itself from a green fruit into a purple fruit. It is delicious at the green stage of maturity as it is when fully purple. Fruits grow high on the plant, keeping them from the soil. The 4-lobed fruits do not fade and if left on the vine, turn a beautiful, bright red colour. 2022 All America Selection Winner.	6.79 \$ 10 s/p
65-7280-01B Abay F1	73	EXCL.	Bright yellow	10 x 10	A yellow pepper that will produce large sized peppers with thick walls throughout the season.	10.09 \$ 20 s/p

Sweet Pepper - Bell						
65-7206-010 Rainbow Mix	55-75	TR EXCL.	Various	Various	Selected blend of high quality varieties with different maturities and colours. Harvest can be spread over a longer period of time, all summer.	4.59 \$ 15 s/p
Sweet Pepper - Bull's Horn						
65-7270-010 Mattadores F1	70	TR EXCL.	Red	25 x 9	"Bull's Horn" type pepper, known as one of the longest sweet peppers in the world. Two or three lobes, relatively thin skin. Light sweet taste, to be used fresh or for processing.	10.09 \$ 20 s/p
65-7272-01N Cornissimo F1	75	UNT EXCL.	Green/ red	15-18 x 6	Extra-large Bull's Horn fruit that ripens from green to red, with outstanding thick walls, rich flavour and more sweetness than most large-fruited peppers. Great on the grill or stuffed and baked in the oven. To produce seedless fruit, grow in isolation from other non-seedless pepper varieties. If not isolated, it will produce larger, great-tasting fruits with just a few seeds. Best grown in-ground with the support of stakes or a cage.	10.09 \$ 20 s/p
Sweet Pepper - Mini						
65-7209-01N Snackabelle F1	55	UNT EXCL.	Green/ red	8 x 6	A tasty and original treat. Snackabelle offers a continuous yield of apple-shaped fruits, very sweet, ideal for eating raw or for stuffing.	7.89 \$ 20 s/p
65-7220-01N Candy Cane F1	60	UNT EXCL.	Green w/ stripes/ red w/ stripes	10 x 4	Fancy small pepper that ripens from green and white stripes to solid red. Its sweet flesh is perfect for eating at any stage of ripeness.	11.09 \$ 20 s/p
65-7213-01N Pretty N Sweet F1 Patio Collection	60	UNT EXCL.	Multi colored	2.5 x 4	At last! An ornamental pepper that can be eaten and tastes fantastic. Pretty N Sweet is just that: a sweet, multi-colored pepper on a compact 45 cm plant that is attractive to use in ornamental gardens and containers. Pretty N Sweet is early and prolific (you can harvest weekly in peak season) and has an amazing sweet taste with substantial pepper walls to enjoy. AAS 2015 winner.	7.89 \$ 20 s/p
65-7296-01N Just Sweet F1	75	UNT EXCL.	Yellow	7 x 4	Here is a small unique 4-lobed snack pepper, similar to a Bell pepper, but smaller. The 7 cm fruits are deliciously sweet with nice thick walls and the plants are vigorous growers (up to 90 cm tall and 37 cm wide). You don't need stakes for this chili pepper as the plant has a very robust bushy growth habit. The Just Sweet snack pepper is sweet and has a bright and shiny colour that will please everyone. 2020 AAS Winner.	6.79 \$ 10 s/p
65-7264-010 Hungarian Cheese F1 Mix	75	TR EXCL.	Red/ orange/ yellow	4-6 x 2-3	Rather unusual, this mix of Hungarian peppers in three different colours will catch everyone's attention thanks to their bright colours and also for their unusual flat shape. Perfect to be used for stuffing or for eaten raw because of their excellent sweet taste.	10.09 \$ 20 s/p
65-7200-01N Minisweet Mix F1	75	UNT EXCL.	Yellow/ red/ golden	8-9 x 3	Now available as a mix of three shiny colours, these mini sweet peppers remain a favorite that pleases everyone either in a lunchbox or in raw vegetable platters. Can be grown in your garden or in a patio container on your balcony. The plants are loaded with small, smooth, sweet fruits with very few seeds.	10.09 \$ 15 s/p
65-7214-01N Mad Hatter F1	85	UNT EXCL.	Green/ red	5-8 x 5-6	Intriguing small flattened-disc shape pepper with lobes or wings. Mad Hatter is crunchy, crisp and mild. Ideal for eating at mature green or ripe red stage. A large indeterminate plant that will benefit from a support or a trellis.	11.09 \$ 20 s/p
Sweet Pepper - Shepard						
65-7265-010 Dimitri F1	68	TR EXCL.	Red	20 x 5	Italian type pepper with smooth fruits, in a conical shape and with a pointed tip. The ideal pepper for roasting but can also be pickled.	10.09 \$ 20 s/p
Sweet Pepper - Shishito						
65-7286-010 Takara F1	63	TR EXCL.	Light green, red	9 x 3	Takara is a typical Shishito pepper with a small fruit and a mild but rich flavour. Takara may exhibit 5 to 10% fruits that are spicy or pungent under stressing climatic conditions like hot and dry temperature. This phenomenon makes it fun to grow in your garden.	10.09 \$ 20 s/p

Summer squash - Zucchini Libanese						
65-4580-010 Ishtar F1	45		Pale green	12-14	This Lebanese type zucchini produces short and smooth, light green and white mottles fruits. The yield is high and harvest extends the growing season.	5.69 \$ 15 s/p
Summer squash - Zucchini Green						
65-4542-010 Eight Ball F1	45		Medium dark green	6-8 diameter	This unique early zucchini has a perfectly round shape and nice medium green color. This variety produces its fruits on a compact and open habit making it easy to pick.	5.69 \$ 15 s/p
65-4568-010 Quirinal F1	45		Dark green	15-18 x 4	This exceptionally good quality zucchini has immediately been adopted by professional growers. This medium green, smooth and very productive zucchini has shown good resistance to powdery mildew. Fruits are 15 to 18 cm long on a vigorous, open and almost spineless plant.	5.69 \$ 15 s/p
65-4559-01N Easy Pick F1 Green Patio Collection	45		Dark green	18-20 x 4	A variety adapted to containers or the garden. Very easy to harvest thanks to its open plant with no spines. Reaches a height and width of 90-130 cm.	5.69 \$ 15 s/p
65-4571-01B Green Machine F1	48		Medium to dark green	19-22	It produces higher yields of nice medium to dark green fruits. Its compact plant will use less space in your garden and the open plant habit makes it easier to harvest. It also shows a good tolerance to many diseases, so a good durability throughout the season.	5.69 \$ 15 s/p
Summer Squash - Mix						
65-4500-010 Home Garden Blend	--		Mix	Various	A special blend selected for your garden. Grow five of the most popular varieties from the same packet. Squash Vegetable Spaghetti, squash Acorn Heart of gold, squash scallop Sunny Delight, squash buttercup Sunshine and green zucchini Quirinal.	5.69 \$ 15 s/p
Summer Squash - Luffa						
65-4538-01N Zou Sing F1	55		Dark green	50-60	Your favourite scrubber actually comes from a vegetable, a long ridged type of squash. The early maturing dark green fruits are 50-60 cm long. This variety is not sensitive to day length. It is adapted to long summer days. The very long vine needs to grow on a trellis until maturity. Remove all the flowers from the vine below 1.20 m if any. Fruits are ready to pick when the green skin has turned dark yellow or brown and starts to separate from the fiber. Start from transplants.	5.69 \$ 15 s/p
Winter squash - Buttercup				Plant Habit		
65-4605-010 Buttercup Burgess	100		Dark green	Vine	A nice, Buttercup type, winter squash, produces spotted dark green and silvery lined fruits. It has a rich taste reminiscent of sweet potatoes. It keeps very well.	3.59 \$ 15 s/p
65-4606-010 Sunshine F1	100		Dark orange	Compact	The tender flesh of this buttercup squash is bright orange, sweet and tender, ideal for cooking, mashing and pies. Dark colored, the fruits are slightly flat round and 1.4 to 2.3 kg in weight. This compact vine produces 3 to 4 fruits per plant.	5.69 \$ 15 s/p

65-4610-010 Early Butternut F1	75		Tan	Semi-bush	Another all-time favourite! This compact vine bears high quality Butternut fruit. Firm and meaty flesh that's seductively sweet with a unique nutty flavour that gardeners rave about.	4.59 \$ 15 s/p
65-4615-010 Quantum F1	85		Tan	Vine	Quantum has a very high yield and high fruit uniformity. Its vine is also much healthier and will stay green for longer in the season, so you can harvest the fruits later in the season in order to store them. Fruit weight :1, 1-2 kg.	5.69 \$ 15 s/p
65-4621-01N Honeynut (Mini)	85		Dark tan	Vine	An appealing mini butternut squash, an outcome of a research program from Cornell University. Honeynut is an open pollinated plant with a strong tolerance to powdery mildew. It produces an abundant yield of uniform mini fruits with a very high sugar content when fully ripe when fully coloured. Stores well.	5.69 \$ 15 s/p
65-4618-01B Havana F1	85		Tan	Semi-vine	Early ripening butternut squash that gives big blocky, fragrant and fleshy fruits. The flesh is deep orange and tasty. Vigorous plants that are well adapted to North America's growing conditions. Replaces the Tiana variety.	6.79 \$ 15 s/p
65-4608-010 Butterkin F1	100		Tan	Vine	Get some attention to your garden with this new and unusual cross between a Butternut and a pumpkin. This results in vibrant orange fleshed fruits, with a creamy, smooth and sweet flesh. Ideal for roasting, baking, soups or pies.	6.79 \$ 15 s/p
Winter squash - Hubbard						
65-4632-01N Uchiki Kuri	95		Red orange	Vine	Uchiki Kuri is a Japanese type Hubbard with a dark red-orange skin, and delicious creamcoloured flesh. Its flesh is flavourful, firm but never stringy, which makes it very popular in Japanese and Thai dishes. Uchiki Kuri plants are robust and productive even in our climatic conditions, providing 3 or more fruits per plant. The fruits average 1.5 kg each. Early variety.	7.89 \$ 15 s/p
65-4625-010 Heavenly Hubbard F1	100		Grey green	Vine	The first hybrid Hubbard squash on the market. Greyish green fruit full of warts. Its yellow flesh has a fine texture and a sweet taste. Ideal to make original fries.	6.79 \$ 15 s/p
Winter squash - Kabocha						
65-4635-01N Sweet Mama F1	85		Dark green	Bush	This squash has a texture and the shape similar to a cupless Buttercup. Keeps better and has a better taste than the Buttercup.	7.89 \$ 15 s/p
Winter squash - Acorn						
65-4649-010 Mashed Potatoes F1	85		White	Compact	Stark white acorn that will hold its pure colour into late fall. The flesh is nearly white and resembles mashed potatoes when baked and fluffed. A delicious change in your dishes. Most of the fruits are found on the crown set.	5.69 \$ 15 s/p
65-4650-01N Goldilocks F1	85		Orange	Bush	Bright orange acorn squash with a uniform shape and colour used for both food and decoration. The plants are vigorous, the yield is good and the nutty flavour is delicious. 2021 All America Selection Winner.	6.79 \$ 15 s/p
65-4657-01B Table Queen	90		Dark green	Bush	Ribbed fruit with smooth thin but solid skin. Orange flesh that is very tasty when cooked. Ideal to accompany meat or to use for stuffing.	5.69 \$ 15 s/p
Winter squash - Specialty						
65-4660-010 Bush Delicata	80		Cream / green stripes	Bush	Eye-catching fruits with green striping over a creamy white background. Noticed for its smooth internal texture and sweet, nutty flavour. An early variety on a compact plant, a spacer saver for the garden.	4.59 \$ 15 s/p

65-9011-01N Siberia	48		Very small Det.	Red	125	Vigorous tomato that tolerates diversity of temperatures. Plants are 45 to 60 cm in height and will produce 40 to 60 fruits. Green shoulder. Very well liked by gardeners.	3.59 \$ 20 s/p
65-9015-01N Polbig F1	55		Small Det.	Red	170-225	Very round, firm, fleshy fruits. Excellent yield. Well adapted to cold regions.	11.09 \$ 20 s/p
65-9002-010 Patio F1	60		Small Det.	Red	115	With a compact and erect plant. Ideal for containers, pots, and small garden areas. Green shoulder.	5.69 \$ 20 s/p
65-9086-01B Caiman F1	64		Large Indet.	Red	220-240	An early Beefsteak tomato, on a vigorous and open plant, very easy to grow. Produces round fruits, dark red in color with a very appreciated great taste.	7.89 \$ 15 s/p
65-9026-01N Tasti-Lee F1	64		Medium Det.	Red	180-200	ts fruits have a high lycopene (antioxidant) content for those who are concerned with their health. Tasti-Lee grows on a determinate plant that consistently produces flavourful fruits, average weight of 180 g, all through the season. The fruits have a rich red colour inside and out. The fruits remain firm even when fully mature.	10.09 \$ 15 s/p
65-9209-010 Goldmine F1	65		Large Indet.	Yellow	225-240	Popular variety. Very productive plant. Bright yellow colour. Distinct taste, less acid than the red fruit varieties.	5.69 \$ 20 s/p
65-8882-01N Pink Cupcake F1	65		Medium Det.	Pink	200-250	Early pink tomato, without green shoulders, very firm and with a great taste. A better choice than Pink Girl for its firmness.	6.79 \$ 20 s/p
65-9000-01N Homeslice F1 Collection Patio	65		Small Det.	Red	140-200	A vigorous, compact variety that produces tomatoes in abundance. Plants are perfect for growing in patio containers or small gardens and the fruit has a delicious old-fashioned tomato flavour.	6.79 \$ 20 s/p
65-9003-01N DarkStar F1	65		Large Indet.	Purple	225-280	A happy marriage between heirloom tomato flavour and modern hybrid tomato performance. Early maturing, rich, purple beefsteak fruits, with a higher yield potential and fewer blemishes than most heirlooms. The large plant offers high disease resistance to late blight, for a longer harvesting season. Best grown in ground or with the support of trellis or cages.	6.79 \$ 20 s/p
65-8880-01N Pink Girl F1	65		Large Indet.	Pink	225	Large calibre, smooth and uniform fruit of good quality. High tolerance to splitting and very productive. Fruits may have green collar.	6.79 \$ 20 s/p

65-9029-01N Celebrity Plus F1	68		Medium Det.	Red	200	Improvement of the famous variety Celebrity. Same good yield, same delicious taste, but with more disease tolerance.	7.89 \$ 20 s/p
65-9046-01N Mountain Merit F1	69		Small Det.	Red	225-280	Mountain Merit is considered as a superior tomato by vegetable growers. With a 4-5 week harvest window, the dark red fruits grow on a compact, determinate plant and offer good resistance to multiple diseases common to homegrown tomatoes such as late blight. High adaptability. An all-around flavorful fruit, perfect for sandwiches or as side-dish.	6.79 \$ 15 s/p
65-8898-01N Chef's Choice F1 Yellow	70		Large Indet.	Yellow	300	Here is a savoury addition to the Chef's Choice tomato selection. Yellow Beefsteak type on a very productive indeterminate plant. At least 30 fruits of 300 g per plant, of large meaty delicacy. A sweet citrus-like flavour with just the right amount of acidity.	6.79 \$ 20 s/p
65-8899-01N Chef's Choice F1 Orange	70		Large Indet.	Orange	330	Experience the excellent flavor of this orange tomato in only 70 days from transplant! Chef's Choice Orange has a wonderfully bright, almost neon, internal color and superior flesh taste and texture for an early maturing orange tomato. The leaves cover fruit well to protect from sunburn. AAS 2015 winner.	6.79 \$ 20 s/p
65-9100-01N Heirloom Marriage Genuwine F1	70		Large Indet.	Red	300-330	This variety replaces the Brandywine and reaches its maturity up to 2 weeks earlier! A crossing between two heirlooms to create an early tomato of better quality and high yields but keeping its same good old taste.	6.79 \$ 20 s/p
65-9077-01B Indigo Apple	72		Large Indet.	Purple / red	55-110	A larger Indigo tomato with exceptionally high anthocyanin content. Sweet, rich flavored fruits resist cracking and sunscald, lasting long into cool autumn weather when others have quit. Firm, meaty fruits turns red when ripe and show disease tolerance.	7.89 \$ 20 s/p
65-9093-01N Big Beef Plus F1	73		Large Indet.	Red	280-400	Improvement of the popular variety. Sweeter taste (more Brix), redder interior and exterior colour with a greater tolerance to disease.	6.79 \$ 20 s/p
65-9081-01N Mega Fantastique F1	75		Large Indet.	Red	175-185	Replacing famous Fantastic tomato, here is Mega Fantastic. Same vigorous plant, same tomato size and colour, same favorite taste, appreciated by gardeners for years.	5.69 \$ 20 s/p
65-9088-01B Marmande	75		Medium Semi-det.	Red	150-200	A superb quality. A variety producing flattened fruits of good calibre. A delight to the home gardener.	6.79 \$ 20 s/p
65-9075-01N Heirloom Marriage Cherokee Carbon F1	75		Large Indet.	Purple	280-350	This tomato is a robust beefsteak type, purple in colour, with a rich flavor that comes from a cross of Cherokee Purple x Carbon.	7.89 \$ 20 s/p

65-8897-01N Chef's Choice F1 Green	75		Large Indet.	Green	250-280	This addition to the Chef's Choice series produces unique green coloured fruits with subtle yellow stripes and a wonderful citrus-like flavour with a perfect tomato texture. Plant is disease free throughout the season. Perfect for your foodie customers! Winner AAS Regional.	6.79 \$ 20 s/p
65-9096-01N Buffalosun F1	75		Large Indet.	Orange-red	300-350	All of a heritage tomato with better texture, higher yield and less cracking. Buffalosun will give you beautiful orange-red fruit on the outside, nicely marbled on the inside, until the end of the season. Its indeterminate plant produces fruits with a sweet taste, a tender flesh without a pasty texture. For a good performance in the garden, it is recommended to stake Buffalosun. 2020 AAS Winner.	6.79 \$ 10 s/p
65-9097-01N Striped German (Heirloom)	78		Large Indet.	Yellow	175-185	A unique heirloom selection producing bicoloured red and yellow fruits. The flat, medium to large, variably ribbed shoulder is about equally shaded, striped yellow and red. Bicolour interior, appealing and flavourful nice texture.	6.79 \$ 20 s/p
65-9099-01N Marriage Big Brandy F1 (Heirloom)	78		Large Indet.	Pink	350-425	This new tomato, created from a cross between two heirlooms, is a new pink Beefsteak with better yield and earlier maturing and a great flavor. Best used in gardens.	6.79 \$ 20 s/p
65-9091-01N Long Keeper	78		Large Indet.	Red	175-185	The best storage variety. Eat great tomatoes all winter long. Large, orange-red, juicy and delicious fruits. Pick when partially ripe, before the first frost. Wrap each tomato individually in newspaper and keep in a cool place. They will keep 6 to 12 weeks.	4.59 \$ 80 s/p
65-9098-01N Stuffer Striped (Heirloom)	78		Med/large Indet.	Red	170	A stuffing tomato with thick walls, the fruit weighs about 170 g, striped in deep red and orange. Stuff it with vegetables, rice, fish or cheese and savour it raw or oven baked.	6.79 \$ 20 s/p
65-9095-01B Beefsteak	80		Medium Det.	Red	200-700	A favourite for those who love meaty, thick and tasty large tomatoes for sandwiches.	5.69 \$ 20 s/p
65-8896-01N Chef's Choice F1 Pink	85		Large Indet.	Pink	335-400	To complement the Chef's Choice selection, here is a large pink beefsteak tomatoes. The perfect acid to sugar balance in this tomato makes it a must for any home chef. Consider canning these beautiful tomatoes. The potato leaf-like plant has good disease resistance.	6.79 \$ 20 s/p
65-8900-01N Chef's Choice F1 Mix	70-85		Large Indet.	Mix	Variable	Get the complete Chef's Choice tomato collection in a single envelope. Each indeterminate plant will provide abundant harvest of yellow, green, orange or pink fruits for an all-tomato summer.	6.79 \$ 20 s/p
65-8895-01N Oxheart	100		Very large Indet.	Rose	300-350	Popular variety. Very large, fleshy, heart-shaped fruit. Green shoulder. Delicious.	3.59 \$ 80 s/p

Tomato - Cherry							
65-9234-01N Tiny Tim	45		Small Det.	Red	Less than 25	Early, small and compact red tomato. Recommended for growing in pots.	3.59 \$ 20 s/p
65-9236-01N Tumbler F1	45		Medium Det.	Red	25-30	This variety feature fruits of about 3 cm in diameter. Tumbler has a graceful, cascading habit and produces up to 2.7 kg of cherry-type tomatoes.	6.79 \$ 15 s/p
65-9245-01N Candyland F1	55		Large Indet.	Red	7-8	A very nice small cherry tomato that can be compared to the Bonbon variety. Candyland's fruits are bright red in colour with a sweet taste. It will produce a lot of fruits that are easy to harvest because its trusses grow outside of the plant making them easy to reach.	6.79 \$ 20 s/p
65-9291-01N Chocolate Sprinkles F1	55		Large Indet.	Red with green sprinkles	20	Here is the first cherry tomato with a chocolaty sprinkled colour that resists diseases. It also produces more fruits with better flavor than other open pollinated tomatoes of the same colour. Best grown inground.	7.89 \$ 10 s/p
65-9253-01N Sugar Gloss F1	55		Medium Indet.	Red	20-25	Sugar Gloss produces the most garnished tomato trusses you have ever seen! Each truss can contain up to 60 glossy red fruits, that weight around 20-25 g each. They also have a good flavor with a 12% Brix rating.	7.89 \$ 20 s/p
65-9246-01N Sweet'N'Neat F1 Scarlet	55		Small Det.	Scarlet red	25	Here is an all-new ultra compact cherry tomato, especially suited for patio containers and even for window boxes. A 15 cm container will be sufficient to obtain a stack of sweet and healthy fruits.	7.89 \$ 20 s/p
65-9248-01N Sweet'N'Neat F1 Yellow	55		Small Det.	Yellow	25	Ultra compact cherry tomato, especially suited for patio containers and even for window boxes.	7.89 \$ 20 s/p
65-9227-01N Moncherry F1	58		Medium Indet.	Red	15	Candies in abundance! Moncherry produces a great yield of little red, sweet and juicy fruits on a vigorous plant.	7.89 \$ 10 s/p
65-9250-01N Pepe F1	58		Compact Det.	Red	15-20	A juicy cherry tomato with a high sugar content giving it an amazing sweet taste. Can be grown in the garden or in pots. Do not miss it!	11.09 \$ 20 s/p
65-9237-01B Jasper F1	60		Large Indet.	Red	10	AAS winner. This small tomato about 10 g, stands out for its distinctive flavor, smooth texture, holding ability, and overall garden performance (high yield). Jasper is tolerant to Mildew and Blight (Early and Late Blight).	7.89 \$ 15 s/p

Variety Code	Maturity (days)	Form.	Plant size	Colour	Fruit weight (g)	Variety Description	Price 1 Pkg
Tomato - Cherry							
65-9266-010 Sweet Million F1	65		Large Indet.	Red	Less than 25	Highly noticed for its unique taste! Continuous flower set and fruit production all summer long. Produces fruits that are smaller in size than Sweet 100. The plant is strong and vigorous with high disease tolerance.	5.69 \$ 20 s/p
65-9268-01N Sweet Treats F1	65		Large Indet.	Pink	20-30	A unique cherry tomato with the distinctive taste of a pink tomato. Sweet Treats will provide the gardener with a complete eating experience: good aroma, perfect texture and a phenomenally sweet flavour. Fruits grow in clusters of 12-15 fruits per truss. Definitely a must.	7.89 \$ 10 s/p
65-9289-01N Chocolate Cherry F1	70		Medium Indet.	Red black	Less than 25	Improvement of the Black Cherry variety because of an increased tolerance to skin cracking. Chocolate Cherry has a rich red mixed with dark chocolate colour and a very sweet taste. For field, greenhouse or container production.	5.69 \$ 20 s/p
65-9278-01B Indigo Blue Berries	75		Large Indet.	Purple	25-50	The Indigo Blue Berries is as appealing to the palate and eye as its name implies. The plants produce trusses of delectable, little, 25 g - 50 g cherry tomatoes. The green fruit quickly develop purple tops and crimson bottoms, ripening to a midnight black tone. The fruit contains high levels of anthocyanins, a naturally occurring antioxidant (that reveals in the vibrant indigo pigmentation) reported combating disease. For the best sparkling flavour and texture, harvest when the colours have deepened.	7.89 \$ 10 s/p
65-9303-01N Apple Yellow F1	80		Large Indet.	Yellow	Less than 25	This AAS Winner offers incredible performance, a unique small apple shape with dimples, a lemony note in the taste and a fleshy, firm and meaty texture. The fruits are an eye-catching, bright, lemon-yellow colour with just the right balance of sugar and acid in a firm exterior.	7.89 \$ 10 s/p
65-9302-01N Apple Red F1	80		Large Indet.	Red	Less than 25	Just like its little yellow sister, Apple Red is characterized by its small dimpled apple shape, its fleshy and firm texture and its taste balanced in sugar and acidity. The yield of bright red fruit is very high, to the delight of gardeners.	7.89 \$ 10 s/p
Tomato - Cocktail							
65-9210-01N Mountain Magic F1	65		Large Semi-det.	Red	35	Excellent tasting Campari type cocktail tomato. Tolerant to cracking with a long shelf life. Fruit can also be harvested in clusters. Dark red fruit. A must in your garden!	6.79 \$ 15 s/p
65-9277-01N Sturdy Jo F1 Patio Collection	55		Large Det.	Red	25-30	A unique tomato that will adapt to various container sizes. It has a strong regrowth after the fruits are picked and can grow till 3 times its length. The skin is soft and the fruit is juicy. An interesting fact is that Sturdy Jo was known to be the sweetest in the world - testing required!	7.89 \$ 10 s/p
65-9235-01N Indigo Rose F1	75		Large Semi-det.	Purple	50	A cocktail tomato type that is eye-catching and has a good balance of sugars and acids. Indigo Rose is will stand out in your garden as well as in your dishes.	7.89 \$ 20 s/p

65-9259-01N Red Pear	65	UNT EXCL.	Small Det.	Rouge	Less than 25	Popular variety. Small, very sweet fruits for pots or small planting areas. Flavourful.	4.59 \$ 30 s/p
Tomato - Plum							
65-9286-01N Plumbrella F1 Mix Patio Collection	65	UNT EXCL.	Small Det.	Mix	15-20	A new genetic for patio tomatoes. The plum-shaped fruits of this determinate patio tomato will develop above the leaves and spread like a blanket for an attractive visual effect. The plant and leaves are heat tolerant. The deliciously sweet fruits ripe early and are easy to pick. Plant and fruiting habit make it an ideal variety to produce in containers or to use as in combos. Four colours in a packet: pink, red, orange and yellow.	7.89 \$ 10 s/p
Tomato - Grape							
65-9239-01N Juliet F1	60	UNT EXCL.	Medium Indet.	Rouge	25-30	Variety of glossy dark red fruits, 4 cm long by 2 cm diameter. Unique sweet flavour and smooth texture. Tolerant to cracking. High yield.	5.69 \$ 20 s/p
65-9313-01N Sun Dipper F1	60	UNT EXCL.	Large Indet.	Orange	30	Sun Dipper is an orange "dipper" tomato with an eye-catching elongated fruit that is easily held between fingers for dipping in dressing on a vegetable platter. The delicious, sweet fruits grow on an indeterminate plant that has good tolerances to diseases. An original addition to your garden.	7.89 \$ 10 s/p
65-9273-01B Matthew F1	60	EXCL.	Large Indet.	Orange	35	Grape tomato, orange in color, of large size can be compared to the Juliet variety. A unusual way to bring variety to your table.	7.89 \$ 10 s/p
65-9233-01N Sugary F1	60	UNT EXCL.	Large Indet.	Rose	12-16	Unusual! Here is a proud little dark pink grape tomato that deserves its name. It contains 9.5 % more sugar than most other cherry type varieties. Superior high yield. Vigorous plants that may need pruning.	6.79 \$ 15 s/p
65-9272-010 Sweet Heart F1	60	TR EXCL.	Large Indet.	Rouge	Less than 25	Here is a versatile variety of tomato that can be grown in your garden or in a greenhouse. Remarquable for its tolerance to cracking and has a fabulous great taste.	7.89 \$ 15 s/p
65-9238-010 Navidad II F1	64	TR EXCL.	Small Det.	Rouge	Less than 25	Small but very sweet grape tomato. Navidad II Red has a compact and determinate plant and its fruits have increased tolerance capabilities to cracking.	7.89 \$ 15 s/p

Sunrise Sauce F1

Pozzano F1

Granadero F1

Supremo F1

Mariana F1

Plum Regal F1

Marriage Perfect Flame F1
(Heirloom)

Little Napoli F1

San Marzano Marzito F1

Variety Code	Maturity (days)	Form.	Plant size	Colour	Fruit weight (g)	Variety Description	Price 1 Pkg
Tomato - Italian							
65-9218-01N Sunrise Sauce F1	60		Small Det.	Orange	85-100	The only orange Italian hybrid tomato on the market. Determinate plants are ideal for small-space gardens or large containers. It will produce easy-to-peel tomatoes, sweet and meaty, with a taste like traditional Roma. Sunrise Sauce yields large amounts at one time, enough to make a recipe of tomato sauce or salsa. It can be enjoyed fresh, but cooking will allow for all the flavors to come out.	7.89 \$ 20 s/p
65-9213-01B Pozzano F1	68		Medium Indet.	Red	150	A traditional looking "San Marzano" tomato that produces large tomatoes without green shoulders. The fruits are really full and have a good tolerance to blossom end rot.	7.89 \$ 10 s/p
65-9216-01B Granadero F1	68		Compact Indet.	Red	150	An Italian tomato tolerant to cooler conditions that produces a good yield of large fruits. Ideal for preparing sauces and cannings.	7.89 \$ 10 s/p
65-9211-010 Supremo F1	70		Compact Det.	Red	120-130	Early, large tomato that produces high numbers of extra-large, blocky, plum-shaped fruits. Compact plants have a concentrated production period and set well in the heat. High quality fruits are very firm. Nice red colour at maturity. Excellent for sauces.	5.69 \$ 20 s/p
65-9226-01N Mariana F1	72		Small med. Det.	Red	125-130	Mariana is one of the widely used saladette types because of its wide adaptability, disease package and fruit uniformity. Plants offer good yields of fruits that have good smoothness and are uniformly ripening. Excellent choice for canning, salsas, sauces and juice.	7.89 \$ 20 s/p
65-9222-010 Plum Regal F1	73		Medium Det.	Red	120-130	Our first variety of Italian tomato resistant to mildew and late blight. Plum Regal has a beautiful dark red internal color and a fabulous flavor making it ideal for sauces or salsas. It is also crack resistant and the determinate plant will keep healthy in the garden.	7.89 \$ 20 s/p
65-9215-01N Marriage Perfect Flame F1 (Heirloom)	75		Large Indet.	Orange	110-125	Orange saladette tomato with sweet-tart fruitiness. Perfect Flame is a cross of Peron x Flame and is the earliest-ripening Heirloom Marriage variety. It is best grown in-ground.	6.79 \$ 20 s/p
Tomato - Italian Mini							
65-9243-01N Little Napoli F1	60		Small Det.	Red	30	One of the only patio romas, with disease resistance for better garden success. High yields for such a small plant – harvest enough at one time for a batch of salsa or sauce! Best grown in a container.	7.89 \$ 15 s/p
65-9271-01N San Marzano Marzito F1	60		Large Indet.	Red	25	Small tomato with an elongated shape that is reminiscent of a Roma fruit, which is great for cooking a quick sauce. The firm texture and rich, sweet flavour mean it can be eaten fresh like cherry and grape tomatoes. Great disease resistance. Best grown in-ground.	7.89 \$ 10 s/p

Variety Code	Form.	Plant height (cm)	Spreading (cm)	Variety Description	Price 1 Pkg
Balm					
67-1310-01N Balm Lemon	UNT EXCL.	30-80	40-50	This plant can reach 40 to 50 cm in height on erect stems. Balm leaves are small, lobe-shaped, serrated and have a lemony perfume. (Annual)	3.59 \$ 200 s/p
67-1311-01N Mandarina	UNT EXCL.	30-80	45	Very aromatic perennial with a high and spread plant habit. Oval green leaves with a gentle mandarin fragrance. (Perennial)	11.09 \$ 30 s/p
Basil					
67-1112-01N Emerald Tower (Genovese)	UNT EXCL.	60-90	20-30	Well-branched variety with short internodes that makes a beautiful towering plant with a huge harvest. Grows well in-ground, in containers and hydroponics. Emerald Tower will flower up to 10 to 12 weeks later than the standard basil. Traditional Genovese flavour. Dark green, glossy foliage and tidy habit that stands out in your garden. (Annual)	6.79 \$ 100 s/p
67-1117-01N Emily (Genovese)	EXCL.	30	30	New Genovese type dwarf basil particularly well adapted for containers. This basil was bred to have shorter stem lengths between nodes while keeping its large and aromatic leaves. Emily has a longer shelf life after harvest than most basil varieties, and keeps longer than most Genovese types under refrigeration. (Annual)	4.59 \$ 100 s/p
67-1113-01N Everleaf (Genovese)	UNT EXCL.	25-30	25-50	The first basil crossed to ensure a good harvest all season thanks to its very late bolting. Compact and well-branched variety with intense basil flavour. Intermediate tolerance to downy mildew and fusarium. (Annual)	4.59 \$ 100 s/p
67-1110-01N Fine Green	UNT EXCL.	20-30	25-30	A compact plant with small smooth leaves. (Annual)	3.59 \$ 100 s/p
67-1105-01N Greek	UNT EXCL.	25-50	25-50	Basil with the same characteristics as the bush basil but even more scented. The leaves vary in size from 2 to 10 cm. (Annual)	3.59 \$ 100 s/p
67-1125-01N Helios (Lemon)	UNT EXCL.	40-60	30	Basil with a rapid growth that produces small leaves. Has a pleasant taste of basil and lemon. (Annual)	6.79 \$ 100 s/p
67-1120-01N Large Genova Green	UNT EXCL.	20-30	25-30	Lovers of this fragrant and flavourful annual herb tell us this is our best selection! Its large, smooth leaves add a delicious Mediterranean taste to your sauces, soups and salads. (Annual)	3.59 \$ 100 s/p
67-1162-01B Rosie (Red)	EXCL.	25-30	25-30	Here is a new variety of dark red basil. A compact plant on robust stems. (Annual)	3.59 \$ 100 s/p
67-1100-01N SimplyHerbs Try Basil	UNT EXCL.	60-75	30-40	Here is an all-in-one pellet including 3 basil varieties; Genovese, red and serrated selections! This mix will allow you to easily and quickly create an assortment of basil plants. Each pellet contains 8 to 14 seeds. (Annual)	6.79 \$ 25 s/p
67-1165-01N Purple Ball	UNT EXCL.	30	25-30	Unique basil with a spherical shape, compact and bushy, that will grow 30 cm high. A bushy plant that fills itself with small dark purplish-purple leaves and no less purple tubular flowers. An original variety to grow in the kitchen or in the garden. 2018 Les Exceptionnelles Programm Winner.	5.69 \$ 100 s/p

Chamomile

Chervil Curled

Garlic Chives

Nelly

Basil Collection

Herb Garden Collection

Herbes de Provence

Variety Code	Form.	Plant height (cm)	Spreading (cm)	Variety Description	Price 1 Pkg
Basil					
67-1133-01N Thai Siam Queen	UNT EXCL.	60	60	Jolina is a Genovese basil with a spicy taste of Thai. This variety was bred to be more compact, so it can easily be used for pot production. Its dark green leaves are smaller than the usual Genovese varieties. Finally, Thai basil is usually more tolerant to diseases and Jolina benefits from this advantage as well. (Annual)	6.79 \$ 100 s/p
67-1131-01N Everleaf Thai Towers	UNT EXCL.	60-90	20-30	Gorgeous columnar basil plant that presents masses of green leaves with occasional purple flecks and soft purple stems. Its aromatic and vibrant licorice flavour complements any dish, especially in Thai cuisine. Late-flowering habit means huge harvests of flavourful leaves throughout summer. (Annual)	6.79 \$ 100 s/p
Borage					
67-1510-01N Borage	UNT EXCL.	45	30	Borage is a plant that can reach 80 cm in height. Its juicy leaves with a flavor of cucumber, has multiple uses, culinary, medicinal and cosmetic. It is also used to soften and cleanse the skin. It is rich in calcium and potassium. (Annual)	4.59 \$ 55 s/p
Burnet					
67-7211-01N Burnet	UNT EXCL.	20-30	30	A herb that offers as much a nutty taste than a cucumber taste. Use the leaves in vegetable or fruit salads. (Perennial)	5.69 \$ 75 s/p
Catnip					
67-6350-01N Catnip	UNT EXCL.	90-100	50-60	The leaves are used for teas and for seasoning. Cats adore it, garden pests hate it! A great companion plant for many vegetables. Cut down it makes excellent pest-deterrent mulch. (Perennial)	4.59 \$ 200 s/p
Chamomile					
67-1710-01N Chamomile	UNT EXCL.	40-50	15-20	Camomile produces a multitude of flowers and is quite popular for tea infusions. (Perennial)	3.59 \$ 500 s/p
Chervil Curled					
67-2510-01N Chervil Curled	UNT EXCL.	40-50	20	Chervil is easy to grow and will bring you an abundant production if it sits in a humid soil, in the shade. It is quite appreciated in cuisine to complete many types of dish, such as soups, salads, sauces, meats, etc. (Annual)	3.59 \$ 200 s/p
Chives					
67-3120-01N Garlic Chives	UNT EXCL.	30-40	30	Flat, greyish-green leaves with a distinctive taste of garlic. (Perennial)	3.59 \$ 200 s/p
67-3116-01B Nelly	EXCL.	15-30	15-20	This chive has a nice dark blue-green color on a fine, to medium, stem. Vigorous and upright growth. Very tolerant to disease and thrips damages on leaves. (Perennial)	3.59 \$ 200 s/p
Collection					
67-0030-01N Basil Collection	UNT EXCL.	**	**	A collection of popular Basil. A collection contains one (1) packet of each: Rosie, Large Genova, Fine green, Greek and Lemon. (Annual)	16.59 \$ collection
67-0015-010 Herb Garden Collection	TR EXCL.	**	**	A traditional collection of popular fine herbs. A collection contains one (1) packet of each: basil, chervil, dill, marjoram, mint, oregano, sage, savory and thyme.	14.49 \$ collection
67-0020-010 Herbes de Provence	TR EXCL.	**	**	Prepare your own Provencal herb mixture that you can use fresh or dried in your favourite recipes. Included, is one (1) packet of each: large Genova green basil, oregano, rosemary, winter savory and winter thyme.	11.09 \$ collection

Variety Code	Form.	Plant height (cm)	Spreading (cm)	Variety Description	Price 1 Pkg
Collection					
67-0025-010 Italian Herb	TR EXCL.	**	**	Italian cuisine is with no doubt very delicious. With this unique collection you will succeed Italian recipes and to make your own pesto. The collection includes one (1) packet of each: large Genova green basil, marjoram, oregano, Italian dark green parsley and sage.	10.09 \$ collection
Coriander					
67-3556-01B Marino	EXCL.	60-100	25-30	Compact variety well adapted for production in containers. Marino is quick to emerge, grows vigorously, and resists to bolting. Abundant and fragrant harvests ahead! (Annual)	3.59 \$ 150 s/p
67-3551-010 Santo	TR EXCL.	40-50	75	Plants are bushier than the common variety. Slow to bolt. (Annual)	3.59 \$ 150 s/p
Cumin					
67-1912-01N Cumin	UNT EXCL.	45	30	The cumin seeds are mainly used as spice. Their flavour resembles that of the caraway seed but is more pronounced. Used in soups, breads, cheeses, it is a basic ingredient for making commercial curry powder. It is preferable to start cultivating cumin plants in a greenhouse because it requires warm conditions. (Annual)	4.59 \$ 100 s/p
Dill					
67-0510-010 Dukat	TR EXCL.	60-75	30	Grown for its pungent leaves and seeds. Has a uniform plant habit with larger umbels than other varieties. (Annual)	3.59 \$ 200 s/p
67-0511-01N Fernleaf	UNT EXCL.	40-50	30	A very unique variety for its extremely bushy plant, very close internodes and multiple secondary branches. The umbels are a long time in production. Mainly sold for its branches. (Annual)	3.59 \$ 100 s/p
Fennel					
67-4313-01N Dragon F1	UNT EXCL.	75	45	Dragon is a very round fennel, of medium to fast growth, very slow to bolt. With a dwarf habit and excellent resistance to heat and yellowing, Dragon can be grown in almost all conditions. Spread your sowings through late spring and into summer and you will harvest your own homegrown fennel bulbs right through to autumn. (Annual)	4.59 \$ 80 s/p
Lavender					
67-4911-01N Lavender Munstead	UNT EXCL.	30	60	A beautiful, early and compact lavender. (Perennial)	3.59 \$ 100 s/p
Lemongrass					
67-3202-01N Lemongrass	UNT EXCL.	60-100	30-60	We now offer you the very popular tropical herb favored in Thai cuisine, lemongrass. Not only is it widely used as a culinary herb but also as a medicinal herb in India. It has long, slender, pale green stems that are thick and fleshy with a subtle citrus flavor. Lemongrass can be dried and ground into powder or used fresh in soups, curries and stir-fries. This perennial must be grown in warm weather. (Perennial)	5.69 \$ 300 s/p
Lovage					
67-5310-01N Lovage	UNT EXCL.	100	150	Lovage has a celery-like growth; it can be eaten raw or blanched. Its leaves have a pleasant celery flavour. Sprinkle seeds over meat dishes or candies can also be used in the making cordials or lovage wines. Roots have medicinal qualities. (Perennial)	4.59 \$ 100 s/p
Marjoram					
67-5510-01N Marjoram Sweet	UNT EXCL.	20	15	Resembles oregano but with larger leaves. Is very useful in the kitchen: sprinkle on meat or vegetable dishes, use in salad dressings, etc. Also used as an insect repellent. Superior yield in humid, fertile soil in a very sunny area. (Perennial)	5.69 \$ 100 s/p

Peppermint

Spearmint

Cleopatra

Oregano

Oregano Greek

Astra (Curled)

Green Pearl (Curled)

Italian Dark Green

Bellezia

Rocket

Wasabi

Rosemary

Variety Code	Form.	Plant height (cm)	Spreading (cm)	Variety Description	Price 1 Pkg
Peppermint					
67-6321-01N Peppermint	UNT EXCL.	50-90	30-50	Bushy, well-branched plant with egg shaped elongated leaves with an intense flavour. Used by cooks, by herbalists and in the making of alcoholic beverages. (Perennial)	4.59 \$ 200 s/p
Spearmint					
67-6320-01N Spearmint	UNT EXCL.	30-60	40	One of the most popular mint because its leaves have a fruity, mild taste and great aroma. Mint is used in many culinary recipes. The plants are overrunning with stems that spread rapidly and widely. Flowers are purple at maturity. (Perennial)	4.59 \$ 200 s/p
Oregano					
67-6521-01B Cleopatra	EXCL.	25	25	This oregano has a pretty silver gray foliage appreciated for its ornamental beauty and flavor value. Cleopatra distinguishes itself from Greek and Italian oreganos by a mildly spicy flavor tinged with a fresh mint coolness. This compact, trailing plant produces a high yield of leaves that makes it a first rate container plant. AAS 2015 winner. (Perennial)	5.69 \$ 300 s/p
67-6510-01N Oregano	UNT EXCL.	20	15	Similar to Origanum majorana, but the taste is not as pronounced. (Perennial)	3.59 \$ 400 s/p
67-6520-01N Oregano Greek	UNT EXCL.	20	30-40	Its thick, oval shaped, furry leaves offer spicier flavour. (Perennial)	4.59 \$ 400 s/p
Parsley					
67-7131-01N Astra (Curled)	UNT EXCL.	25-40	30	Here is a deep green, triple curled parsley developed to be grown and harvested all season long. Can be used fresh, dried or frozen. (Annual)	3.59 \$ 100 s/p
67-7128-01B Green Pearl (Curled)	EXCL.	30-40	30	High quality variety densely filled with curly dark green leaves on strong stalks, ideal for garden and pot cultivation. (Annual)	3.59 \$ 100 s/p
67-7155-01N Italian Dark Green	UNT EXCL.	40	30	A productive selection with a more vigorous plant habit. Yields dark green, smooth leaves. (Annual)	3.59 \$ 100 s/p
Rocket (Arugula)					
67-8123-01B Bellezia	EXCL.	15	20	Arugula Bellezia is a beautiful variety with an impressive tolerance to downy mildew. Striking dark green and highly serrated leaves give Bellezia an elegant look. Excellent bolting tolerance, and excellent shelf-life. (Annual)	5.69 \$ 100 s/p
67-8110-01N Rocket	UNT EXCL.	15	20	Cultivated arugula, with a rich and peppery taste, without being too spicy. Good tolerance to bolting. (Annual)	5.69 \$ 100 s/p
67-8104-01N Wasabi	UNT EXCL.	15	20	Wasabi rocket is a new variety of small young shoots that will tickle your nose, such as the mustard bearing the same name. Its small leaves, with delicate serrated edges, are at the same time tender and spicy. It will give a «punch» to your recipes. (Annual)	5.69 \$ 100 s/p
Rosemary					
67-7910-01N Rosemary	UNT EXCL.	90 -150	90-150	Grayish-green, woody stems. Leaves are dark green on top and are white on the bottom, persistent, narrow, pointed and 2 to 3 cm long. Known for its spicy scent. The strong aroma of the leaves makes it a favourite choice in culinary, medicinal or other preparations. (Perennial)	5.69 \$ 180 s/p

Sage Broad Leaf

Summer Savory

Winter Savory

Sorrel French

Stevia

Dropshot

Tarragon Russian

Orangelo

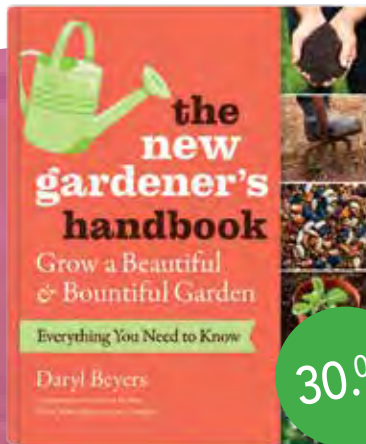

Winter Thyme

Wormwood

Variety Code	Form.	Plant height (cm)	Spreading (cm)	Variety Description	Price 1 Pkg
Sage					
67-9110-01N Sage Broad Leaf	UNT EXCL.	75	50	Traditional seasoning for poultry stuffing, meats, sausages, omelettes, cheeses and bean dishes. It has attractive, light blue flowers. A sage plant will deter many insect pests, but will attracts bees. (Annual)	3.59 \$ 100 s/p
Savory					
67-8910-01N Summer Savory	UNT EXCL.	30	15	It has narrow dark green leaves with pale purple flowers making it a very nice plant for rock gardens and borders. (Perennial)	3.59 \$ 200 s/p
67-8920-01N Winter Savory	UNT EXCL.	35-40	30-40	It can be compared to Summer Savory, but with a more pronounced flavour. Leaves are greyish green, with beautiful white or pink flowers. Multiple culinary and medicinal uses. Very attractive as a mini shrub or border plant. (Perennial)	3.59 \$ 200 s/p
Sorrel					
67-6710-01N Sorrel French	UNT EXCL.	30-45	20-25	Large green leaves, very acid, slightly lemony taste. Used for soups, salads or in fish dishes. (Perennial)	4.59 \$ 100 s/p
Stevia					
67-9210-01N Stevia	UNT EXCL.	30-50	30-50	This is a unique and interesting herb, whose dried leaves can substitute for sugar in drinks, desserts and many other dishes. A delightful addition for your garden. (Annual)	7.89 \$ 12 s/p
Tagete					
67-9301-01N Dropshot	UNT EXCL.	25-30	25-30	Dropshot is an annual plant, part of the marigold family, that has insignificant flowers. The foliage has a sweet taste with a strong licorice or anise flavour. Dropshot, globular in shape, branches freely and produces a dense plant of fine, thin and tender leaves which can be used to flavour drinks, tea and food. Also great just chewed on its own. (Annual)	6.79 \$ 100 s/p
Tarragon					
67-3910-01N Tarragon Russian	UNT EXCL.	60-90	30-45	Dark green leaves on the top, lighter underneath, narrow and slightly pointed. Various culinary uses. Flavour is more pronounced than French tarragon. (Perennial)	3.59 \$ 400 s/p
Thyme - French					
67-9515-01N French Tyme Orangelo	UNT EXCL.	25-30	30-35	French Thyme with a traditional thyme fragrance and overtones of a citrusy orange scent. Orangelo is useful in the kitchen and quite interesting as a fragrant ground cover in the landscape, where it forms a low mat and spreads to cover the soil. During summer the plant fills itself with tiny white flowers. A hardy evergreen perennial that survives to USDA zone 5. It can be used in containers of all sizes, as ground cover, with perennials or makes an excellent filler component for mixed containers. (Perennial)	7.89 \$ 100 s/p
Thyme - Winter					
67-9510-01B Winter Thyme	LEAF	25-45	20	Very small, dark green, elongated, oval leaves. Small flowers are from light purple to lilac. Multiple culinary and medicinal uses. Superior yield if cultivated on slanted, poor, rocky areas that are exposed to the sun. Tolerates dryness. (Perennial)	3.59 \$ 100 s/p
67-9510-01N Winter Thyme	UNT	25-45	20	Available in untreated seed. (Perennial)	3.59 \$ 100 s/p
Wormwood					
67-0310-01N Wormwood	UNT EXCL.	80-100	100-150	This attractive, silvery-grey absinthe plant makes an ideal background in a border. It is excellent as an insect repellent. (Perennial)	5.69 \$ 900 s/p

The New Gardener's Handbook is a comprehensive overview of the fundamentals of gardening, based on the introductory gardening class that Beiers teaches at NYBG. Readers will learn about soil, plant selection, propagation, planting and mulching, watering and feeding, pruning, and weeds, pests, and diseases. The information applies to both ornamental and edible plants. Featuring inspiring photography and helpful illustrations, The New Gardener's Handbook gives home gardeners a foundation upon which they can grow, and encourages them to apply the lessons they've learned in an intuitive, natural way. Author: Beiers Daryl Editor: Timber Press, 240 pages.

LARRY HODGSON presents the most comprehensive book on seedlings ever written in Québec. Whether it's for indoor or outdoor seedlings, ornamental plants, vegetables or herbs, he explains everything, from harvesting and saving seeds to sowing, always from the point of view of a laid-back gardener. Since each seed has its own needs, the author gives in the second part all the necessary indications to successfully grow 350 plants using seedlings. The overview includes annuals and common vegetables as well as perennials, biennials and herbs, which are often more complex. Sowing has never been easier. Larry Hodgson. Editor: Broquet. 224 pages.

SEEDERS

Earthway Precision Garden Seeder

Léger et facile à utiliser, le semoir "Earthway" vous offre performance et durabilité. En un seul passage, il ouvre le sillon, espace et enfouit les semences, referme le sillon et compacte le sol. Il peut même tracer le rang suivant grâce à son marqueur pratique. Fait de matériel résistant, il n'y a que la poignée à mettre en place. Les plaques à semis pour les principaux légumes (maïs sucré, haricot, pois, radis, carotte, betterave) sont comprises. **Individual seed plates sold separately.**

1 unit (plate) 16.60 \$/each

A 06-5054-010 Earthway Precision Garden Seeder

1 unit 247.50 \$/each

B 06-5022-010 Sweet corn plate

7.2 inch spacing in the row.

B 06-5023-010 Broccoli seed plate

1 inch spacing in the row.

B 06-5024-010 Lima bean seed plate

12 inch spacing in the row.

B 06-5026-010 Carrot, lettuce, cabbage and onion plate

4.5 inch spacing in the row.

B 06-5030-010 Popcorn seed plate

9 inch spacing in the row.

B 06-5038-010 Pea plate

3 inch spacing in the row.

B 06-5040-010 Blank seed plate

Create the spacing needed on the row.

B 06-5050-010 Radish, leek, asparagus and spinach plate

3 inch spacing in the row.

B 06-5051-010 Bean and sweet pea plate

3.6 inch spacing in the row.

B 06-5066-010 Cucumber plate

9 inch spacing in the row.

B 06-5070-010 Beet and okra plate

3.6 inch spacing in the row.

C 06-5901-010 Belt

Earthway seeder spare belt.

1 unit 35.10 \$/each

Mini hand seeder

Made of very sturdy, transparent plastic. Easy to use. Its opening adjusts effortlessly to accommodate different seed sizes. Essential to avoid having to thin out seedlings.

06-5010-010 Mini hand seeder

1 unit 4.00 \$/each

3 units or more 3.60 \$/each

Magic Seeder

More accurate than the mini but as easy to use, the "Magic" seeder is perfect to distribute with precision both small and multipellet seeds in pots or in plug trays. (To open, use the tip of a small screwdriver).

06-5015-010 Magic Seeder

1 unit 19.00 \$/each

3 units or more 17.10 \$/each

Mini wand seeder

Perfect for the home gardener, this seeder can easily handle small, very small or large flowers or vegetable seeds without batteries or electrical power. Working with a hand vacuum bulb, seed is picked and released at the desired location. The set of five tips sizes for most seed groups and the magnified tip gives you a better view of the tiny seeds. The tip storage container lid also serves as a seed tray during sowing.

The set includes: one set of 5 tips, one magnifier tip, one 170 g vacuum bulb in a storage container. Detailed instructions are included.

06-5018-010 Mini wand seeder

1 unit 46.90 \$/each

Vibro hand seeder

This hand seeder is easy to use and allows an accurate and fast seeding... Cordless and water resistant, you can control the speed of the seed falling off by adjusting the control of the speed or tilting the seeder up and down. The seeds spread at the desired location saving you thinning time.

Powered by one 9 Volt battery. Detailed instructions and battery are included.

06-5016-010 Vibro hand seeder

1 unit 123.80 \$/each

Propagating Tray K1020P

These sturdy trays made of durable plastic are suitable for both home and commercial use. Their deep ribbed bottom and rolled rim edges increase their strength and make them easy to handle. They are designed to use Jiffy Peat Pellets, Cell-Packs, seedling trays or any other growing medium. Use as seed flats, transplanting flats, growing trays for plants, bulbs, etc. Without drainage holes.

Dimension : 2.52 x 11.44 x 21.84 inch

06-3041-050

Seed Starting Mix

Pro-Mix organic seed premium soil for seedlings that is ready to use. A peat-based mix with MYCOACTIVE technology to stimulate vigorous growth for greater stress resistance, stronger roots leading to healthier plants with greater resistance to transplant shock. Also formulated with coco fibre that helps manage moisture levels and protects roots from rot. Organic fertilizer that gradually feeds plants for up to 3 months. Ideal for germinating of vegetables, flower, herb seeds as well as for starting root cuttings.

02-4003-010

Premium Organic Seed Starting Mix 9 L

1 unit 8.40 \$/each 3 units or more 7.56 \$/each

Cell-pack

The best way to have healthy young plants with minimum root disturbance. Individual cells in a light weight, reusable plastic tray. The cavity design has a slightly tapered shape that provides maximum soil and root capacity, yet permits easy transplanting with minimal root disturbance. All sizes fit in propagation trays (code 06-3041-050).

A 06-3003-050 8 sections of 4 cells, each (2.4 x 2.4 x 2.28 inch)

3 units or more 15.30 \$/each

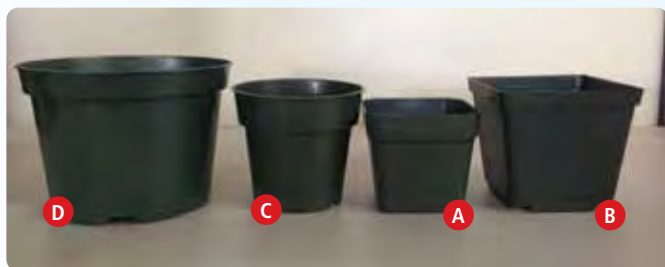

SEEDLING ESSENTIALS

CowPots

CowPots are made from composted cow manure: yes, cow manure! This exclusive process makes environmentally responsible containers respecting the environment sustainably and practically. The containers retain their shape for up to 12 weeks in a greenhouse setting. When planted in the ground, the decomposition process is well started within 3 to 4 weeks. Cow manure enables the natural decomposition of the containers. This decomposition process will save the plant from any stress related to transplantation and aid its adaptation to its new environment. Ecocert Canada approves CowPots as an input for organic agriculture.

Jiffy Peat Pot

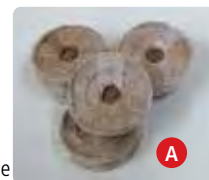

Inexpensive and environmentally sound "Jiffy Pots" are made from 75% sterile, odourless, long fibre compressed Canadian peat and 25% cellulose fibre for strength. Less watering is required because of the pot's superior moisture holding capabilities. "Jiffy A Pots" provide an ideal environment for root and plant growth. Plant roots grow right through pot walls permitting replanting without having to remove the pot!

An all in one growing medium! Convenient and easy to use, the sterile sphagnum peat includes a small amount of fertilizer and is enclosed in a neutral plastic netting that allows maximum root penetration. Place "JIFFY" pellets in a tray or other 2 inch deep container and add warm water. Each pellet expands up to 7 times its original volume (1.6 x 1.6 inch). All is neatly confined in the stretch net casing ready to receive the seed, seedling or leaf cutting.
1 unit 15.00 \$/each 3 units or more 13.50 \$/each

Coir container and pellets

Coconut palms grow new coconuts on a monthly basis, leaving the environment completely untouched. Peat, on the other hand, takes about 100 years to renew itself. This product line is made from a base of coconut fiber, provides greater resistance to mold, provides plants with faster growth and rehydrates easily requiring up to 30% less watering. Coconut fiber is an environmentally friendly alternative for a choice of growing media and pots. Made from 100% biodegradable organic material, these are more durable than peat and can be transplanted directly into your garden or planter.

FIND A DROP-OFF POINT: the RecycFluo program drop-off points are there to help you recycle your bulbs containing mercury. <https://www.recycfluo.ca/en/>

Prismatic LED light Strip Equipment

Here is a more affordable upgrade to LED technology with higher efficiency. This produces up to 20% more light output through the use of a more efficient filter. The light passes through a prism which concentrates the light into a beam that has an angle of 90 degrees rather than 120 degrees like the old model. This technology ensures better light coverage on the plants which promotes faster growth. In addition, this system is practically silent and contains no mercury.

The equipment includes a 6400K LED strip with prismatic lens, a 6-foot power cord with a switch, a 14-inch link cord, two hanging and flat surface mounting clips.

06-1085-010 Prismatic LED light Strip Equipment - 2 ft kit

1 unit 55.00 \$/each 3 units or more 49.50 \$/each

06-1087-010 Prismatic LED Light Strip Equipment - 4ft kit

1 unit 82.00 \$/each 3 units or more 73.80 \$/each

LED Bulb T5

Improve your T5 lighting equipment by replacing its fluorescent bulb with an LED bulb. It adapts with the T5 kit structure and offers the same growth performance. Advantages: energy savings, contain zero mercury and extended life of approximately 50,000 hours.

06-1031-010 2 Feet T5 LED BULB

One (1) replacement bulb for 60 cm T5 Grow light system and the Grow light Garden 06-1080-010.

1 unit 23.50 \$/each 3 units or more 21.15 \$/each

06-1036-010 4 Feet T5 LED BULB

1 unit 37.10 \$/each 3 units or more 33.39 \$/each

Seedling Heat Mat

The heating mat warms the rooting area to improve germination and rooting. This mat is designed to increase the rooting area temperatures by approximately 10-20 °F above surrounding air temperature. Plugs into a 120-volt power source.

Length 20 inch Width 9 inch.

06-9020-010 Seedling Heat Mat

1 unit 39.10 \$/each 3 units or more 35.19 \$/each

Digital heat mat thermostat

A digital thermostat allowing you to select and maintain the optimal temperature for faster seedlings or crop growth. This thermostat is compatible with our seedling heating mat (code 06-9020-010). Simply plug both sets and push the 3-pin probe into the growing stand and set to the needed temperature. Thermostat temperatures range is between 68 °F to 108 °F.

06-9025-010 Digital heat mat thermostat

1 unit 47.80 \$/each 3 units or more 43.02 \$/each

Jump Start Soil Heating Cable (24 ft.) ^(N)

This flexible cable fits virtually on any growing area. The built-in thermostat maintains a constant temperature of 25°-30°C (77°F-85°F), which accelerates germination and promotes strong growth. Spread two inches of sand, then arrange the cables so that they are about 8 cm (3") apart. Add another layer of sand or soil to the desired depth (deeper for less heat, shallower for more). The area is then ready to be used as a permanent propagation table for seeds, seedlings and cuttings. The cables are designed to operate 24 hours a day. Complete instructions and safety precautions are included. (32W/120 V/0.27A).

T5 Lightning Kit with reflector and Fluorescent bulb

Cultivate with the T5 reflector and equipment. The reflector helps diffuse light widely through the plants without using extra power. It also reflects heat back into the growing area. This extends the life of the lamp and ballast. The T5HO equipment mimics natural sunlight, so it is ideal for plant and vegetative growth. It is self-ballasted and allows you to connect up to eight (8) fixtures with a single outlet. Suitable for residential or commercial use.

The equipment includes; 6400K grow light, reflector, ballast, six (6) feet long power cord, on / off switch, 14 inch link cord to connect multiple units, mounting and hanging clips. **RecycFluo.**

Jardinière de croissance DEL

The Growlight Garden is the perfect tool for those who like to grow shoots, fresh greens or to start seedlings indoors!

The compact size and shape of this garden unit is ideal for a table or kitchen countertop. The sturdy recycled plastic base acts as a water tank. In its tray, an absorbent cloth covered stand draws the water up to the seedlings by capillarity. It includes four (4) reusable segmented trays for planting. Also, two (2) LED lamps are inserted in the curved reflective hood, flooding the growing area in full spectrum light. This system uses 20% less electricity than a traditional lighting system. The hood's height is adjustable so, once the seedlings sprout, you can lower it to about 4 inch from the top of the plants allowing them to grow bushy, strong, and compact. In addition, there is a built-in timer.

This unit measures 24 inch width x 14 inch depth x 17 inch height. All the components are made of 100% recycled plastic and complete instructions are included.

06-1082-010 Growlight Garden LED with timer

1 unit 264.40 \$/each

High wheel cultivator

This tool was especially intended to loosen the soil, dig the furrow and uproot weeds, all this with minimum effort on your part. In fact, its design almost completely eliminates the weight on the handles and ensures a better stability while doing the work. Made of heavy-duty tubular steel on a 2 feet wheel.

Three (3) interchangeable tools are included: one (1) 5-tine cultivator, one (1) twin end furrow plough and one (1) mould board plough.

12-7050-010 High wheel cultivator

Micromesh Pest and Wind Barrier

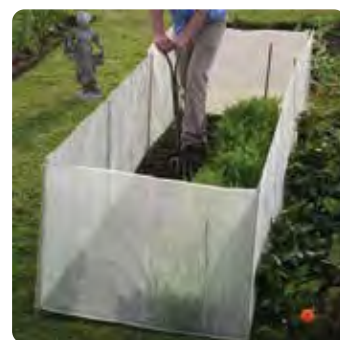

Made of tightly woven, ultra-fine 0.6mm mesh, the pest barrier is ideal to protect any plant from pesky pets, harsh winds and low-flying insects. The sun can still shine on your crop, and you can still water and tend to it. Includes 2 lengths of 10 feet x 2.2 feet and bamboo sticks.

Dimension: Length: 10 feet

Width: 3.2 feet Height: 2.2 feet.

07-1025-010 Micromesh Pest and Wind Barrier

1 unit 44.60 \$/each 3 units or more 40.14 \$/each

Tomato protection

Its secret is the water that is poured in the plastic tubes, almost 12 litres, to retain heat, activate growth and insulate young plants from spring frost. Protection guaranteed to minus -12 °C. "Kozy Coats" can even be installed before you plant in the spring, for a faster warming of the soil. Made of strong, re-usable plastic.

WHY IS IT RED? Because studies done by an American University demonstrated that the colour red contributes to the production of larger, earlier fruit! Beware of less expensive, but less durable, imitations.

Dimension: 18 inch tall and when filled with water 12 inch in diameter on the inside.

13-9023-030 Kozy-Coats Tomato Protection (3/unit)

1 unit 19.30 \$/each

3 units or more 6.21 \$/each

FERTILIZER AND SOIL AMENDMENTS

Soil Activator

Soil activator is composed of a unique blend of microorganisms naturally found in the soil. They help increase yield by improving the availability of the soil's nutrients. It will allow for better assimilation and availability of nutrients as well as improving water retention in the soil. Apply preferably at the time of seeding or planting. **Organic certified by Ecocert Canada.**

02-0404-010 Soil Activator 425 g

Mix with soil: 425 g treats up to 350 litres of soil. Mix with soil at seeding or transplant. Mix with water 425 g treats an area up to 4575 p² of flower bed.

1 unit 30.90 \$/each 3 units or more 27.81 \$/each

02-0405-010 Soil Activator 50 g

Mix with soil: 50 g treats up to 40 litres of soil. Mix with soil at seeding or transplant. Mix with water 50 g treats an area up to 538 p² of flower bed or 80 - 10 cm containers. Mix with at least 4 litres of water and apply to soil at the base of plants.

1 unit 6.40 \$/each 3 units or more 5.76 \$/each

Pro-Mix Root Booster

Discover PRO-MIX root booster 5-15-5 which contains two (2) growth hormones that will help a rapid development of vigorous roots. High phosphorus formula helps reduce transplant shock. Ideal for transplants, trees, shrubs, perennials, seedbeds, cuttings, garden vegetables and herbs.

Concentrated liquid.

Large Patio planter

This large, rectangular planter is ideal for bigger garden space. **Dimension: 17 inch wide x 40 inch length x 10 inch height.**

07-1022-010 Large Patio planter

1 unit 14.90 \$/each

3 units or more 13.41 \$/each

Moisture and pH meter ^(N)

Here is a 2 in 1 device that measures the pH and humidity of your substrate in the garden, in planters and indoor pots. Use the moisture meter to avoid excess or lack of water by checking its content in the soil before watering your plants. Test the pH, as some plants need a precise level of it to grow and flower which will help guide your choice on fertilization needs. In addition, it can be a good tool to help you choose the right plants for your garden, by verify its pH.

04-1010-010 Bendable Coir Pole™ 30"

1 unit 14.90 \$/each

3 units or more 13.41 \$/each

Wall planter

A hanging planter with 8 pockets, for various plantings, that will substantially increase any planting area. Useful in small gardens, roof tops, terraces, patios, and balconies. Very resistant, this planter is made of top quality UV-stabilized Oxford polyester fabric with reinforced eyelets. The tough Oxford fabric will help keep moisture, and the drainage holes will prevent over-watering. The lightweight planter can be hanged on fences or walls using standard screws or hooks. Easy to clean and to fold away when not in use.

Dimension: Width 24 inch - Height 19 inch

13-9045-010 Wall planter

1 unit 19.90 \$/each

3 units or more 17.91 \$/each

"Root Pouch"

Grow your tomato, sweet pepper, herbs or strawberry plants in the "Root Pouch" pots. Winner of the "People's Choice" award at the "Landscape Ontario" exposition in Toronto, this new technology uses recycled plastic bottles to create plant pots. In addition to being a more environmentally sound option, they are also sturdy, washable, lightweight and reusable. They have a 4 to 5 year degradable life span. More breathable and water efficient they encourage healthier root growth. Ideal for herbs, strawberries and other small plants.

07-1040-010 3 gallons

Ideal for herbs, strawberries and other small plants.

Width 10 inch Height 8.5 inch.

1 unit 3.80 \$/each

3 units or more 3.42 \$/each

07-1041-010 5 gallons with handles

Ideal for tomato, sweet pepper or similar size plants.

Width 11 inch Height 10.25 inch

1 unit 6.50 \$/each

3 units or more 5.85 \$/each
